

ECO Committee The children have been working with great energy this year as we strengthen our commitments to sustainability. Pupils across the school have been learning practical ways to care for our environment and understand how small actions make a big difference. Friday 8th May saw our whole school taking part in an outdoor learning day. Thanks to everyone's hard work, our outdoor spaces are now brighter, greener and ready to showcase during our upcoming Eco Schools inspection. As part of this endeavour, we have begun to care for and update our bug hotel. Soon it will be buzzing with life, providing a safe habitat for important pollinators which helps boost biodiversity across our school grounds.

Rights Respecting Groups This term the pupils will be learning about how children's rights are realised across the globe, using the Rights Around the World resource to explore real examples of children's experiences. Pupils will look closely at how schools in Mozambique are building climate resilience to protect children's right to an education (Article 28) and their right to the best possible health and a safe environment. (Article 24) These stories will help us to deepen our understanding of global citizenship and the shared responsibility we all must uphold children's rights. We will all be celebrating Culture Week soon where we will be learning about and celebrating our own cultures and identities through music, food, dance and traditions. (Article 30)

Rotakids Committee We are finishing off this year with a fantastic project around "Walk to School Week." The aim is to encourage as many pupils and families as possible to walk, scoot, cycle or park/stride to school, helping us all enjoy the benefits of being active, improving our health and reducing traffic around the school. To make this week extra fun and memorable, each day will have a special theme for all pupils to take part in. We can't wait to see everyone getting involved and stepping together towards a healthier, greener school community.

Reading Schools Group Firstly we would like to say a huge thank you to all the parents and families who purchased books from the Book Fayre in March. This resulted in us receiving **over £1200** to spend on new books!! The pupils will be reviewing and updating our class library collections which includes auditing current stock and gathering pupil voice to identify the titles pupils would most like included. This process will ensure our libraries remain relevant, engaging, and reflective of our learners' interests.

More information will follow with regards to some of projects outlined.
