

TROON PRIMARY SCHOOL & EYC

CURRICULAR MAP – TERM 1

PRIMARY 2

Mrs Johnstone and Mrs McCall/ Miss Weatherston

LITERACY

Spelling - A sound will be taught each week with an initial sound and Tricky Words. These will be listed in our Literacy Homework jotter to learn at home. Throughout the week the children will be given opportunities to learn these using a range of active spelling activities.

Reading - The stories in Story World and Bug Club will be read throughout the term. Characters and events in the story will be discussed with comprehension activities in class. We will be working hard on reading with fluency and expression as well as discussing our favourite characters.

Writing - Writing will be taught through the stories of Katie Morag. We will learn how to write descriptions of characters and use WOW words and sentence openers, show information and write about our feelings. Letter formation, building sentences and using our Tricky Words will be a huge focus across our Literacy.

NUMERACY & MATHS

We are focussing on Number Processes, properties of 2D shape and mental maths activities this term. We will be using a wide range of concrete materials such as ten frames, number beads, cubes and rekenreuks to further develop knowledge and understanding of each.

Mental Maths - strategies to use for quick recall of number bonds, word problems and class Number Talks (discussion of strategies used and how to make a number).

Numeracy Blueprint Boards - using 10 frames, 100 number square, number lines.

Addition and Subtraction within 20 - quick recall of number bonds, finding the link between addition and subtraction, finding the missing number and using words for addition and subtraction, e.g. sum of, find the difference etc.

Numbers to 100 - counting to 100, finding the number before, after, between, 2 more, 2 less etc and writing numbers in words.

2D Shape - naming 2D shapes, sides, corners, edges and angles.

SOCIAL STUDIES

Our topic this term is Katie Morag. Listening and talking skills through both class and group discussion about characters and events in the stories will be developed. The children will be encouraged to share their own feelings and opinions and personal experiences relating to a selection of stories. We will talk about our feelings and emotions and ways in which we can help one another to build on our inner resilience when faced with challenges.

The children will create the Isle of Struay working collaboratively in groups and pairs and create an island using symbols on maps. We will learn about islands in Scotland, the Inner and Outer Hebrides and the Isle of Coll and compare how different island life is to living in a town.

Katie Morag is a wonderful topic used to explore sketching using line and pattern, looking at shells and seaside life, painting portraits using watercolours and a wide variety of art and craft activities using different media.

OTHER CLASS INFORMATION

Health and Wellbeing – P.E

We have PE twice a week in the large gym hall and the small gym on a Tuesday and a Friday. We have access to the grass area outdoors on a Wednesday afternoon, weather permitting. Please bring a gym kit with a pair of gym shoes and shorts to keep in class. These should be kept in a bag which is clearly labelled with your name and class.

Science

We will be learning about the function of the skeleton. We will make models and identify the correct names of some bones e.g. skull, spine, pelvis etc. We will learn how to show the parts of the bone through displaying information on a diagram and the important job of our blood cells.

Music

We have music with Mr Paterson on a Thursday afternoon. We will be learning about rhyme and rhythm and using percussion and our voice in different ways.
