

# TROON PRIMARY SCHOOL & EYC

## CURRICULAR MAP – TERM 1

### PRIMARY 5

Class Teachers: Mrs Stewart, Miss Nicoll & Ms Beaton

#### LITERACY

##### Spelling & Grammar

Pupils will continue to follow the Jolly Phonics Spelling and Grammar Programme this session. We will be applying spelling strategies taught to new and familiar sounds. Learners may wish to also practice their spelling words at home. These words can be found on the Homework grid on Teams. Each week, we will carry out a check up to see how each child is progressing.

In Grammar, we will be looking at verb tenses, the subject and object of a sentence, homophones, antonyms and plural nouns.

##### Reading & Writing

This term, our book study will be 'Vicious Vikings', The Horrible Histories text from Teary Deary. Pupils will learn how to accurately answer a range of literal, inferential and evaluative questions about the text. They will also independently skim and scan for information and they will build on prior experience to reference using quotations and page references. Learners will apply this knowledge to create critical paragraphs. Pupils will use this text to start to understand the difference between fiction and non-fiction texts as well as working to a particular audience.

Learners will also develop their reading comprehension skills using texts related to our topic.

##### Listening and Talking

This session, pupils will be demonstrating a range of talking and listening skills through all areas of literacy.

#### SOCIAL STUDIES

##### Vikings

This term, Primary 5 will be learning all about the Vikings. We will be investigating the geography of Vikings, including their journeys and how they lived and shaped the world. We will also be looking at famous Vikings and investigating their Pantheon of Gods.

#### NUMERACY & MATHS

##### Number Processes

Pupils will learn the importance and the effect that place value has on numbers up to 100,000.

Through Number Talk sessions, we will discuss different mental calculation strategies for addition and subtraction up to 4-digit numbers, including 'Partitioning' and 'Friendly Numbers'. We will learn to solve different types of oral problems discussing the mental strategies learned.

Pupils will solve word problems collaboratively, identifying the appropriate calculations and sharing findings.

We will add 3-4 digit numbers with carrying from units to tens, tens to hundreds. We will also subtract 3-4 digit numbers with exchanging.

##### Estimation and Rounding

We will learn to round 3 and 4-digit whole numbers to the nearest ten and nearest hundred, starting to look at the nearest thousand.

We will learn to use estimation in addition and subtraction to find appropriate answers. Pupils will also learn to use an estimated solution to reflect on the accuracy of a calculation.

##### Times Tables

This term, we will focus on ensuring that we have efficient recall of our times tables up to the 12 times table. We will include times table practice in our weekly homework.

#### OTHER CLASS INFORMATION
