

I am a writer

Look at Me

**All children are different.
All children matter.**

First, I practice my gross motor skills. Large cross lateral movements help me develop coordination and muscle memory.

Wake up shake up, climbing, and physical exercise all help strengthen my big muscles.

EYC

Then I practice my fine motor skills. Activities where I need my fingers and thumbs help me

to hold a pencil and strengthen my hand muscles.

Wind-up toys,
threading,
placing and
arranging.

I can make my first marks anywhere!

EYC

I like to choose different ways to write.

Tracing, white boards, chalk, paints.

EYC

I start off big!

EYC

Then I get smaller, and my marks are more varied.

Then one day I will make letters like shapes.

Confident, Consistent and Clever!

EYC
