

Lesson 1 Plan

SPONTANEOUS VISUAL THINKING

Duration: 50 minutes

Spontaneous Visual Thinking Lesson Description

From the minute we start education, we get told how to be creative and what things are right and wrong - we believe that your creativity shouldn't be limited.

This lesson centres around visual responses. All the tasks have been designed to have no right or wrong outcome, the first two quick tasks mean that they can work without having the time to overthink, and in the last task they can make it as big as can be with no limitations.

Materials needed:

Lesson Pack, pens, paper, and anything else they want to use (task 3).
