

A Quick Guide to: Accessibility Reader

Set up

1. Settings > Accessibility > Read & Speak
2. Select Accessibility Reader
3. Turn on Accessibility Reader toggle
4. Turn on Autoplay if required/preferred

To Open Reader, Either:

- Triple Click Home Button (Gen 9) or Side button (Gen 10 or above) and select Accessibility Reader from Shortcuts OR
- Add Accessibility Reader to Control Center so you can swipe down and select from there

To Close Reader, close/swipe away App

Customise Reader

- When Reader is open, click on 3 dots in top right
- Select - AA Customise Reader
- Choose a Background Colour (this can be edited in next step)
- Click Edit
- Customise Font Style, Colour & Size
- Customise Line, Word and Character spacing etc

Accessibility Reader in Magnifier App - Customise Text in Surroundings

- Capture a Picture of text you want using Magnifier App
 - Select Reader (you may need to edit display preferences here too the first time you use)
 - Choose to Hear or Read in your selected Background, font, colour etc.
