# Quick Guide to: Hover Text

Set up

1. Settings > Accessibility > **Hover Text**
2. Slide toggle to turn Hover Text On
3. Adjust Display Mode, Scrolling Speed, Font, Size, Colours etc
4. If you have access to an external keyboard, turn on **Hover Typing** with toggle (you may need to scroll down)
5. Adjust settings as at step 3

How to use Hover Text

- Press lightly on the text you wish to enlarge.
- Run your finger along the text and the Hover Text window will display a larger, high definition version in your chosen colour, font and size.

How to use Hover Typing

- If you have enabled Hover Typing in Settings and you have a keyboard attached to your iPad, Hover Typing will automatically display whenever you start typing.

These functions are useful for those with Visual impairment or Dyslexia
