

How to Enable Pop-Ups in Google Chrome (iPad)

Some websites—especially learning platforms, payment pages, or forms—need pop-ups to work properly. Safari will block these so you will need to use the Chrome app instead. This is available through Self Service.

1. Open Google Chrome
2. In the top-right corner of Chrome, click the three dots (...)
3. Select Settings
4. In the drop down menu, choose content settings
5. Toggle off the Block Pop-Ups option
