

My iPad and me

We are delighted to provide you with your new iPad and we hope you enjoy using it.

WHY HAVE YOU BEEN GIVEN THIS iPad?

This iPad reflects how much we value you as a young person in the Borders. You deserve the best possible education and we want you to have access to the technology you need that will help you reach your full potential.

As you grow into a young adult in a digital world, this is our way of supporting you to go on to have successful careers, with the right skills to give you a bright future. We know that using the tools on your iPad as part of the lessons with your teacher will help you to be prepared for the future digital world.

Enjoy this experience, you deserve it.

LOOKING AFTER YOUR iPad

We trust that you will take care of your iPad and treat it with the care and respect that we know you do with any other pieces of school property as if it were your own.

Tell us what you think

We would love to hear from you about how you're finding your learning experience with your new iPad.

Please email inspirelearning@scotborders.gov.uk to give us your feedback.

Visit www.scotborders.gov.uk/inspirelearning for more information.

We do accept however that there will sometimes be accidents. If your iPad does get broken, please don't worry. We have plans in place to ensure it can be fixed or replaced if needed so please just inform a member of staff, or have your parent/guardian contact the school.

Please be aware though if we think there is vandalism taking place on a regular basis, we will need to talk to you and your parents/guardians about it. Please don't let it come to that.

To help avoid any of this, you must keep your iPad in its case as this will help protect it from damage. Please also don't remove any security markings and make sure you report any damage, theft or loss immediately to the school.

To help you in class, we would like you to come to school every day with your iPad fully charged wherever possible, ready to learn.

Lastly – please remember to listen to your teacher at all times, and make sure you follow their guidance and instructions. If you are using your iPad to record audio or video clips as part of your school work, please make sure you get clear and explicit permission of everyone involved in the recording.

Enjoy your new iPad!
