

KAERU

- This is a traditional song about the tree frogs which live in the temperate rainforests of Japan.
- The words in the last two lines imitate the croaking sound of the frog
- Have a go at making your own rainforests sounds along with the music track after you have sung the song though twice. You could use your voice, body percussion or some homemade musical instruments to shake, tap, scrape and ting.

Kaeru no uta ga (Ka-e-roo no oo-ta ga)
Kikoete kuru yo (Kee-ko-ay-tay koo-roo yo)
Gwa gwa gwa gwa
Gero gero gero gero gwa gwa gwa
