

The Museum of Amazing Musical Minstruments - Introduction

HELLO! My name is Mat the Hat, and for those of you who don't know me, I run a music programme for kids called The Big Drum Adventure.

The Big Drum Adventure is a course of music, drumming, rhythms, songs, games, jokes and amazing shirts..... all from aroooooound the world. Everyone on a Big Drum Adventure with me spends most of their time, well.... Drumming, but every week I have a special feature called the Museum of Amazing Musical Minstruments.

Yes.... Minstruments.

This is where I introduce items from my own personal museum, a collection of amazing sounds and unusual ways to create music that I have built up on my travels aroooooound the world. So prepare yourself to step into the Museum, to be astounded by the marvelous, magnificent and mysterious musical Minstruments from as far away as Africa, South America and the Himalayas.

And if you're wanting to do an activity whilst you're visiting the museum, there's an accompanying pdf with a quiz for each minstrument and web links to explore.

So, in order to enter, put your hands on the handles, yes the doors are big, heavy and creaky, and lets enter the Museum of Amazing Musical Mmmmminstruments.

Enjoy!
