

Here are links to two Spring/nature themed music projects for Early/First Level, created for you by YMI tutor Jenni Borthwick.

Click on the link and you will then be asked to sign in using your GLOW login to access the SWAY presentations.

The projects include interactive teaching videos and further activities you can use in your classroom.

### [The Hungry Caterpillar Rap](#)

Younger pupils can enjoy watching the story presented in a new way with rap music whilst learning some actions and keeping the beat. There are further activities for phonics and the science of life cycles.

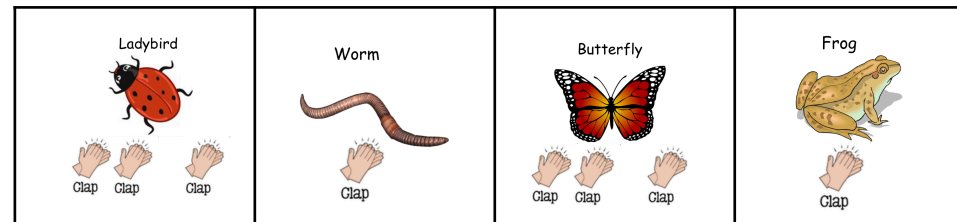

Older pupils can also challenge themselves to learn and chant bits of the rap and use the alliterative writing to stimulate creative writing of their own.

### [Mini-Beast Rhythm Fun](#)

Three interactive videos will guide you through graphic scores to say, clap then play mini-beast rhythms.

As a follow up, printable flashcards and composing grids allow pupils to work independently and create their own rhythms.
