## RELIGIOUS & MORAL

Values of caring and sharing and cooperating with others. Who helps us and what we can do to help someone.

## TECHNOLOGIES

Discuss recycling and what we can recycle in Shetland. Talk about reduce, re-use and recycle.  
Find out about lives in the past - (how homes were heated, lit, transport etc), and discuss how things have developed.  
Use laptops/ipads for activities.

## TOPICS

Spring and Summer - walks to look for signs of spring and summer, tadpoles in class, caterpillars, insects, trees and flowers, baby animals, etc.  
Plants- parts of a plant, different types of plants, what plants need to grow, what we use plants for, planting and growing activities, experiments with plants.  
My Community - where I live, my local community, homes, buildings and amenities, maps of local area. Services in the area and people who help us.

## HEALTH & WELLBEING

Food - where our food comes from,(eg milk, bread), our favourite food, food from plants and animals, what we get from our food (energy, vitamins/minerals, etc)  
Staying safe in the sun  
Visit from Glasgow Science Centre - our bodies

## LITERACY & ENGLISH

Complete the last sounds which are taught in Primary 1 and revise all those learned - reading and writing words using the sounds.  
Handwriting - correct formation and size of all letters (and numbers)  
Capital letters - learn all capital letters - match to lower case one, write them and know when to use them.  
Continue to learn and recognise key words.  
Rhyme - be able to think of a word which rhymes with a given word.  
Listening to stories regularly in class - focus on new vocabulary in the story. Retell familiar stories.  
Create their own writing - stories, lists, cards, signs with increasing independence. (sounding out words and using familiar key words).

## NUMERACY & MATHEMATICS

Money - recognise coins to £2, make amounts up to 10p (and beyond).  
Fractions - equal parts including halves and quarters.  
Sharing - sharing items equally among groups  
Patterns - continuing and making patterns using shapes, coloured blocks and other items.  
Adding and taking away activities - using symbols +, -, =. (to 10 and beyond).  
Finding the missing number on a number line  
Symmetry
