

Brae High School Improvement Plan Overview 2025-26

Embedding High Quality Learning and Teaching to Support all Learners to Discover Their True North

Pedagogy

Embedding High Quality Learning and Teaching

Embedding our newly developed policies and procedures to ensure high quality learning and teaching for learners.

All departments working together to embed visible consistencies in the implementation of high quality learning and teaching.

The Pedagogy Improvement Team will support the delivery of high quality learning and teaching by developing effective professional learning for all teaching staff.

Attainment

Embedding a whole school approach to assessment and using data to secure better outcomes for learners

Embedding our new assessment policy to ensure high quality assessment experiences for learners.

Embedding more effective use of data at class teacher level to plan and implement interventions to raise attainment.

The Attainment Improvement Team will further develop strategic and targeted approaches to raise attainment across the school.

Curriculum

Further developing a progressive curriculum and experiences that enthuse and inspire

Further developing progression pathways across our 3-18 setting to ensure pace and challenge.

All departments to improve progression across the learner journey, including gradients of learning.

The Curriculum Improvement Team will further develop our curriculum by revising our curriculum rationale and developing our approach to PBL and IDL.

Ethos

Implementing a shared and ambitious ethos for the school.

Embedding our vision "Discover Your True North."

Setting aspirational standards by implementing our Features of Aspirational Learners

The Ethos Improvement Team will support increased opportunities for learner leadership and voice.
