

## Charlotte Allam - Chairperson

I grew up in Surrey and moved to Shetland in 2019 with my husband and two children. My background is in the Performing Arts. I trained as a dancer and actor and have worked across the UK and abroad. I'm an accredited yoga teacher and currently teach yoga and a children's dance class at the Vidlin hall. I'm also a volunteer for La Leche League and run the breastfeeding support group LLL Shetland. I want to engage with my children's education, ensure that all parents/carers' voices are heard, and encourage open and constructive dialogue.

## Allison Christie - Vice Chair

I'm on my third (and last) stint on the Parent Council. It's important we work together to support our bairns in the school, and learn more about national and local education provision. The Parent Council is also a good way to support the school through events and fundraising.

## Louise Manson - Secretary

I've recently taken on the Secretary role. My children go to the school, and before them I also went to Lunnasting, so there is lots of history there! I joined the Parent Council to be part of the discussion around the bairns learning experience and to support the school wherever I can.

## Abbey Thompson - Treasurer

I've worked in education for over 20 years and am currently an Acting Head Teacher. I moved to Shetland from South Wales in 2017. I believe a committed Parent Council can assist the school in its aims and provide a range of perspectives on important issues that both challenge and support. I believe that we all learn from each other and can use our different experiences and knowledge to work together for the common good.

## Tori Johnson - Member

I live in Vidlin and work at the school in the Early Years. I have one child currently in the school and one who has just left for high school. I wanted to join the Parent Council as a voice for all in the school community.

## Carol Nicol - Member

I joined Parent Council as all three of our bairns are at the school now. As part of the Parent Council it feels good to get a better understanding of the bairns learning and to be able to support the school where necessary.
