19 September 2024

Dear Parent/Carer

### **S1 Engineering Development Trust Trip**

We are delighted to share that our S1 class has been invited to take part in a workshop around Electricity Transmission delivered by **The Engineering Development Trust**.

The pupils will be asked to design and build their own transmission tower. STEM ambassadors from SSEN Transmissions will be present to help them with their design and build. Pupils will have the opportunity to learn and ask questions about careers within High Voltage and Electrical transmission industries. Pupils will also use Ozbots to plan a route for cabling through an imaginary town.

The workshop will take place on **Thursday 26<sup>th</sup> of September** in **Brae Hall** from 10-13:30.

Pupils should arrive at school at the normal time where they will then get a bus to the 09:15 ferry and will return on the 14:30 ferry.

Pupil will need a packed lunch, if there are any issues with this please contact the school. **If you give consent** to your child taking part in this activity please reply directly to this email.

Yours sincerely

*Susan Thomson*
