

Supporting Schools COVID-19

Dear Parent/ Carer

Hope this finds you well.

During last year's lockdown, before the summer holidays, school staff were invited to attend a Seasons for Growth online Universal Staff Presentation on Covid-19, intended to provide support for staff themselves along with pupils, families and our wider community at this challenging time.

Staff who attended the presentations were then able to access three age appropriate Pupil Presentations, with the aim of delivering one of these to their class upon the physical return to school. Following this second period of school closure these presentations are being sent to schools again in the hope they will be helpful to support pupil return.

The Pupil Presentations focus on feelings, opportunities to talk, how we can help ourselves and what support networks are available to them. There is no requirement for pupils to share anything they don't want to. If you would like any further information on these presentations please just get in touch.

Best wishes

Lynn Nicholson + Marina Bazeley
