

MONDRIAN IS OUR ARTIST FOR THE MONTH AND HE LOVED SHAPES AND COLOUR...

YOU ARE GOING TO CREATE YOUR VERY OWN MONDRIAN.

You will need a few sheets paper, any size (any type of paper, newspaper, wallpaper ANYTHING)

Paints, pens, pencils, crayons, pastels (anything with colour)

Black pen/paint/pencil

Scissors – BE CAREFUL!!!

Glue (if you don't have glue don't worry)

Start with a clean piece of paper. Draw 4 lines starting at one end of the paper straight down to the other side. Make some thick, make some thin, it is up to you!

You now will paint/colour at least 3 different sheets of paper with different colours – remember to make it bright and colourful!

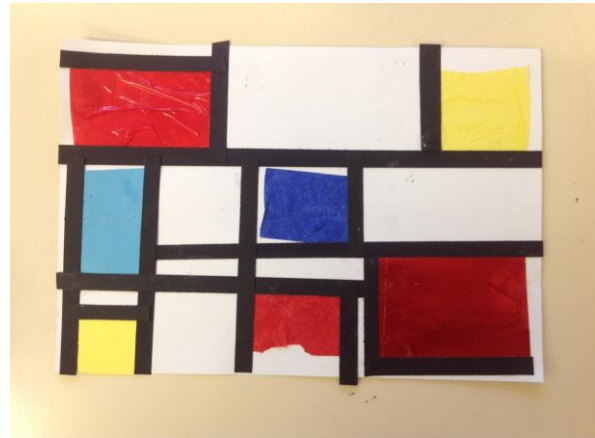

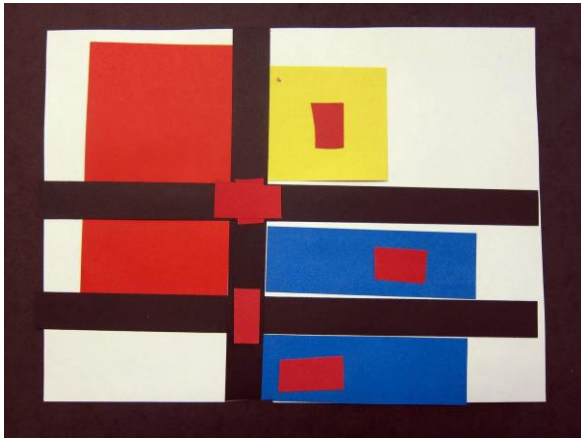

Now it is time to become the artist Mondrian! You will carefully use the scissors and cut rectangles and squares from the coloured sheets then lay them to the side.

It is time now to carefully cut out your black lines and position them however you want, on your last piece of paper. This will become your final piece – your MONDRIAN!

Finally add your coloured rectangles and squares into the composition...

Do you like what you have made?

What colours have worked well together and why?

REMEMBER to sign your artwork because one day it could be worth millions like a MONDRIAN!
