<p>Sumdog Challenge</p> <p>I have set you another Snow Day Challenge on Sumdog. You can still do yesterday's one! Earn some coins!</p>   <p>Subtraction Action</p> <p>All players start with 100 points. They take turns drawing cards from the deck and subtracting that number from their running total (aces = 1, face cards = 10). So if you start with 100 and draw a 7, your new total is 93. On your next turn, you draw a king (10), dropping your total to 83. First player to zero wins. (For an extra challenge, the player must reach zero exactly!)</p>  	<p>Winter Acrostic Poem</p> <p>Choose a winter themed word and create an acrostic poem. Look outside for inspiration and think of some good adjectives to add.
