

Remember this week is only 3 days long! Thursday is an Inservice and Friday (+ Monday) are holidays.

Our craft packs have activities that tie in with this grid. Have fun with the craft ideas suggested and recipes. We look forward to seeing what you get up to when you share on Learning Journals.

Sandwich Early Years Department

Home Learning. Week beg Tues 16th Feb, Term 3, 2020

Numeracy

- ⊗ Have fun learning number order whilst making number cookies. You get to bake (learn life skills), decorate, sequence and then enjoy them! [number cookies](#)

Literacy

- Can you make a real Mr Potato Head (or tattie head as I'd call it!) With permission + supervised get some fruit, veg + cocktail sticks and have fun. After can you draw him and ask your parents to write what you have called it and how you would describe him, you can always mark make on your picture too!

Rhyme: Ants go marching

Do you know this rhyme? It's a great one for numbers. You could have fun marching to it, seeing if you know why the little one stops! Listen to it [here](#)

This week we are suggesting a focus on the **food**. Chinese new year was on the 12th and its Pancake day on the 16th. Do you like Chinese food? Can you make pancakes? What do you like on them?

Ways to promote HWB:

- Watch this video about a [balanced diet](#). Can you make/draw a plate with examples of different food groups?
- On pancake day do you make scotch pancakes or crepes?

Story:

Please click on the link below to enjoy a familiar face read to you. This week's story is called One Mole Digging a Hole by Julia Donaldson + Nick Sharatt and is read to you by [Claire](#)

A reminder to please do:

- Every term we ask your child to do a self portrait of themselves. On an A4 piece of paper please ask your child to draw themselves. Please do not interfere, just let them draw as they think it should be.
- Please note down everything that they say about their drawing, whatever they say eg "this is my pink hair"

Colours - Focus on a different colour a week: this week is purple

Have a hunt in house and see what different things you can find that are purple. How many things can you draw with a purple crayon/pen? Can you find purple things outside too? Do you know how to make purple? What colours do you mix?

PE suggestion – throwing + catching.

Do you have a ball at home you can use and practise throwing between you + a family member? How many can you do before dropping it? Or even a balled up pair of socks does the trick! Can you catch a pancake in a pan?

These are just ideas you can suggest to your child and see where they take it. Have fun, share what you do on Learning Journals in the 'parent contributions' section.

Take care and be safe EYD Team
