

Chaos at the North Pole

Scrapbook

This is the story of how Sound Primary School worked together to find a solution to the Chaos at the North Pole.

The Twinkleelves are usually up to mischief but this year they had lost their sparkle.

They needed your help to find a solution to their problems.

Turn the pages to see some of the fabulous inventions these engineers designed.

I'm stuck on top of the shelf.

My polar bear friend is stuck on an iceberg.

I broke my shelf.

I want to win the annual snowball contest but I've broken my arm.

I got caught in a snowstorm.

I don't know how to help the reindeer fly.

I want to win the annual sleigh race but I don't have a sleigh.

I've lost my jingle bell.

I lost my jingle bell.
The nursery children
helped me by making
new jingle bells.

'We hope the elf is happy to have
a new jingle bell.'

My polar bear friend was stuck on an iceberg. The Primary 1 children helped me by making boats and launching a rescue mission.

The Primary 2
children helped me
by building
shelters to
keep me
warm and
dry.

I got caught
in a
snowstorm.

I got stuck on top of the shelf. The Primary 3 children helped me by creating a safe way for me to get down.

I wanted to win the annual sleigh race but didn't have a sleigh.

The Primary 4 children helped me by building sleighs and I won the race.

I broke my shelf.
The Primary 5
children helped
me by creating
strong shelves.

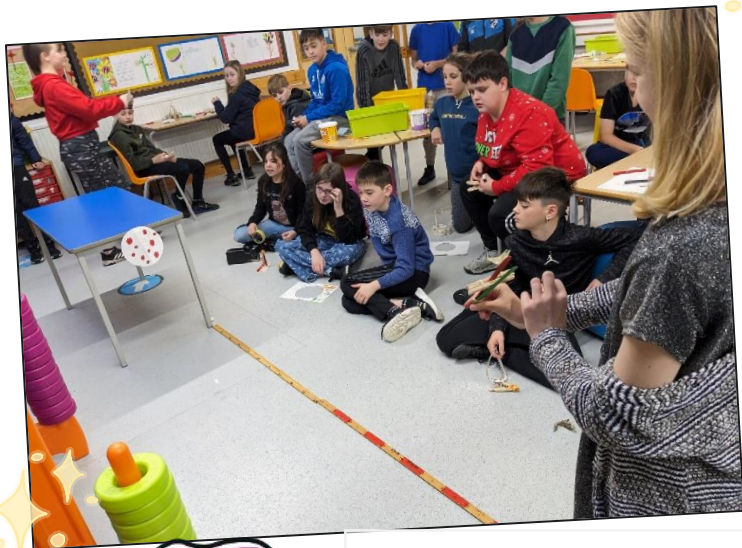

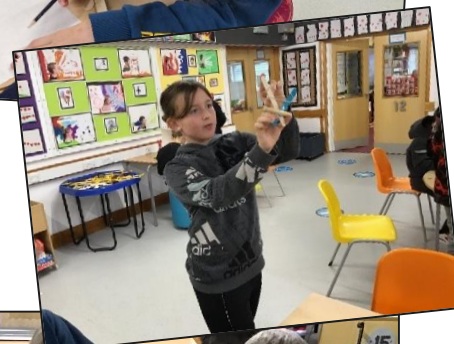

I didn't know
how to help the
reindeer fly after
I spilled the
magic elf dust.

The
Primary
6 children
helped
me by
developing
an alternative
way to get the
reindeer to
take flight.

I wanted to win the annual snowball contest but I had broken my arm. The Primary 7 children helped me by inventing snowball launchers and I won the contest.
