

Parent feedback – how positive is the homework experience in your household?
– June 2026

● Very positive	14
● Neutral	23
● Not positive	8

💡 School based self-evaluation of homework

Equity:

There is an imbalance between the children who complete homework with parental support; the children who complete homework unsupported and the children who do not complete homework.

Quality

Of homework that is completed- the quality varies.

Effective use of time

For time the teacher takes to identify / set up / facilitate organisation of homework in homework jotters- the outcomes could have been taught in school time ensuring equity for all learners.

Actions –

Review homework provision in partnership with parents, with a pause in homework until this is complete.
