

## Make Your Own Kind of Music - IMS Project

We will need 4 things from you –

1. 3 separate audio clips (optional for primary pupils)
2. A photo of you **holding** your instrument
3. A video of you **playing** your instrument (any section/optional for primary pupils)
4. A video of you **singing** the chorus (optional)

**PLEASE RENAME EVERY FILE WITH YOUR OWN NAME AND SCHOOL**

You will need 2 phones (or similar device – ipad / ipod / computer) –

- Phone 1 (or similar device) - to play the backing track using headphones
- Phone 2 - to record your part

Your part will sound better if you record it on your phone. Don't use built-in computer mic.

### **STEP 1 - phone / device recording for instrumental parts**

Use a voice memo app (you will have one on your phone somewhere).

DO NOT USE the video app – the file will be too big to send.

### **STEP 2 - record SECTION 1**

Ask someone else to hold the RECORDING phone near your instrument. Get them to press RECORD and say which section you are playing **BEFORE** you play - 'this is section 1'.

Start the backing track and record your part.

Save the file and rename it (your name and school).

### **STEP 3 & 4 - other sections**

Repeat the process for section 2.

Record sections 3 and 4 on one recording. You will hear what happens on the backing track.

### **STEP 5 - CHOIR !!!**

Ask the person holding the phone to VIDEO you singing the chorus.

**WEAR A BRIGHTLY COLOURED TOP OR T-SHIRT.**

You want to be as happy as possible and feel free to dance if you want. If you think you are not the best singer in South Lanarkshire, please don't worry this section is all about the video and making it look as happy as possible. Your vocal part will be blended with LOTS of other voices. Enjoy yourself and be happy! 😊

### **STEP 6 - Picture**

Take a picture of you holding your instrument.....and SMILE 😊

### **STEP 7 - Send**

Once you have completed everything attach your files and copy the wording below into your email.
