

TASK 3: HIGH 5 HAND!

Now that you have cleared away all the Dangers and made it safe for you and your toy, we can help make them feel better.

Cut out and colour in the High 5 Hand and let's follow the pictures for your poorly toy:

1st- Use your EYES to look at your toy and see if they look awake or not awake?

2nd- Use your MOUTH to talk to your toy and see if they wake up?

3rd- Use your gentle HANDS to tap and shake your toy and see if they wake up.

4th- If they are awake shout for a grown-up....."HELP, HELP"!

If they are not awake, find a phone and call for an Ambulance to come and help!

5th - Comfort them and keep them safe until further help arrives.
