

Accessing Google Classrooms and Home-School Diary

To access your child's homework, you need to log on to glow.

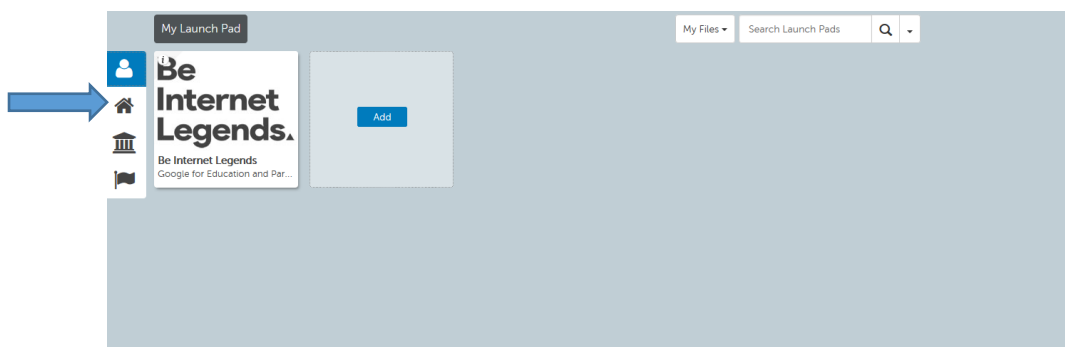

All children in P5-7 should be familiar with the workings of Google Classroom, but those in P1-4 will need support. We are using this method to limit cross contamination and mitigate risk as much as possible.

To log into glow, use your search engine to search "glow log in".

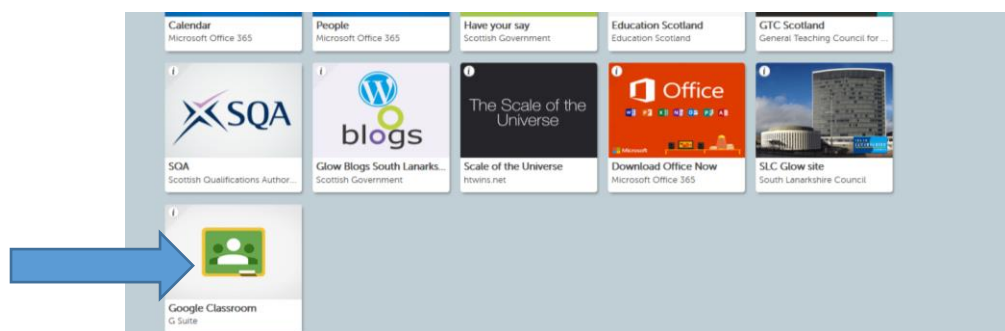

Your child's glow email address and password has been emailed to your personal email address so you have it to refer to throughout the session, or if your child forgets their details.

Once you have logged on you will see a screen similar to below. Click on the picture of the house (Braehead Primary School) at the left hand side and scroll down to the bottom of the page.

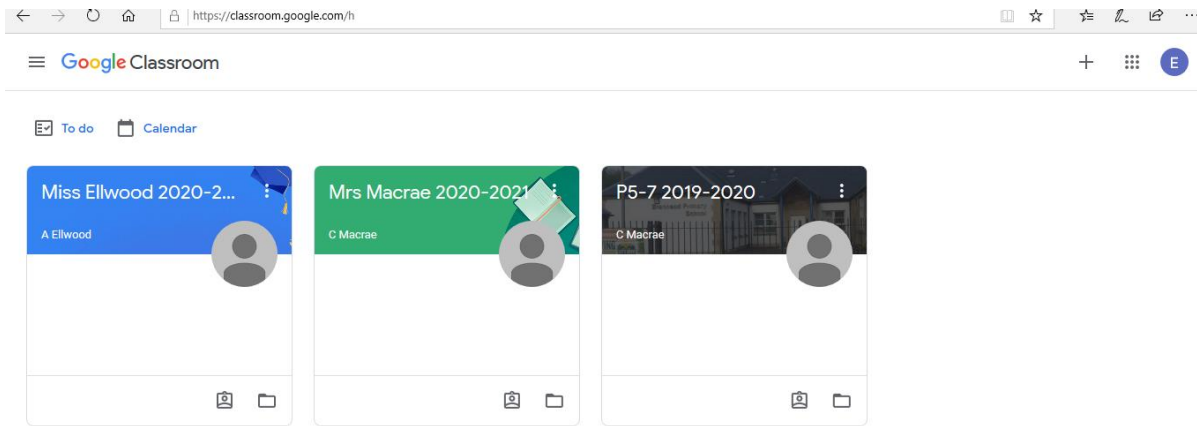

Here you will see the tile called Google Classroom. Click on this tile.

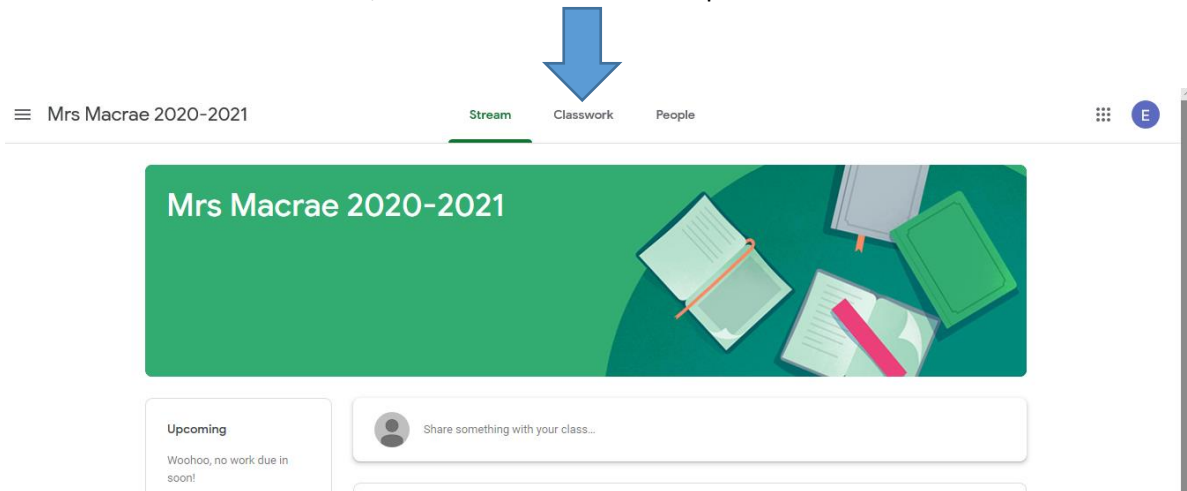

When you are in Google Classrooms, you will see all the 'Classrooms' which your child has been added to. All maths homework will be set by the teacher who teaches your child maths and all literacy homework will be set by the teacher who teaches your child literacy. Some extra topic homework might be set throughout the year by the teacher who teaches your child topic work etc.

Click on the correct classroom.

When in the correct classroom, click on classwork at the top of the screen.

This allows you to see all of the homework which has been set for your child. All of the homework will be placed in folders according to date.

Please do not 'hand in' the Home-School Diary as the teacher will be writing in it every week.

Please contact us if you need any more help or instruction.
