Dear Parents

Summer Provision 2021 – Supporting Children and Young People’s Wellbeing

For the last three years SLC have been delivering summer holiday hubs within targeted communities throughout the Council area. The main aim has been to support identified children and families who would benefit most from participation in additional activities and receive a hot meal every day, throughout the summer holiday period.

Last year, the provision was adapted exceptionally to meet the childcare needs of keyworkers to enable them to continue to deliver critical services during the height of the pandemic. This year, this will **return to the original premise**. The summer holiday hubs will run in the following locations for pupils in the Lanark area and the provision on offer in both establishments will be run by Healthy Valleys.

Robert Owen Memorial Primary (Lanark) Rigside Primary (Rigside)

The summer hubs for primary aged children will run Monday – Friday from Monday, 28 June – Friday, 6 August 2021 from 10:00am until 2:00pm. The clubs are free of charge and lunch will be provided. Programmes will be run on a weekly basis, with children involved in the co-creation and development of themes and activities. Examples of popular, established activities include silent discos, inflatable fun, arts and crafts, a range of outdoor activities and t-shirt design.

Partnership with the South Lanarkshire Leisure Trust

South Lanarkshire Leisure Trust have made available a range of concessions which may be accessed by children, young people and families. ACE cards may be issued to users in the following age groups: 0-5 years, 5-12 years, 12 years and over.

Should you feel this is something your child/children would benefit from over the summer holidays please email the following address for further information:
