

The rabbit

Rabbits have soft fur.
They have long ears.
Their back legs are big
and strong.

They have a little
white tail that bobs up
and down when they
hop about.

When danger is near,
a rabbit will hop down
its hole. Its bobbing tail
tells other rabbits about
the danger.

Rabbits dig tunnels under
the ground to sleep in.

They like to eat grass
and young plants.

Rabbits have two or
three families every year.
The babies are called
kittens.
