•	Operate pods of 8 in nurseries 'including over lunch. Contact EY HQ if	
	requiring assistance.	
•	Decrease physical interactions generally by looking at staff and pupil	
	movement throughout the school. Movement between classrooms should	
	be minimised wherever possible. Where this cannot be avoided, consider	
	providing cleaning supplies to enable wiping down of their own surfaces on	
	entry and leaving.	
•	No assemblies or other typically large gatherings.	
•	Introduce a flexible approach to the physical reconfiguration of teaching	
	and non-teaching areas, taking account of hygiene, staffing, supervision and	
	individual learner and staff needs.	
•		
	be safely spaced to promote physical distancing.	
•	Determine and adhere to safe levels of occupancy in heavy traffic work	
	areas taking account of physical distancing controls.	
•	Use one-way or keep left systems, staggered breaks and starts.	
•	Access classrooms directly from outside where possible.	
•	Enforce staggered use of staffrooms, break areas and offices to limit	
	occupancy at any one time with appropriate signage. Encourage cleaning	
	items after each use including cooking equipment, crockery and cutlery.	
•	Maximise outdoor space throughout the day ensuring those with complex	
	needs or disabilities are not disadvantaged and hygiene arrangements are	
	in place for shared equipment.	
•	Consider integrated procedures and guidance for pupils leaving and	
	returning to school e.g. lunchtime.	
•	Consider arrangements for pick up/drop off to ensure physical distancing	
	can be maintained and large gatherings avoided. (Staggered starts, one way	
	system in place, separate entrance/exit for each bubble/pod)	
	Encourage parents to consider the most appropriate travel arrangements	
	including, as far as it is safe to do so, walking, cycling and scootering to help	
	reduce unnecessary travel on buses or public transport.	

•	Ensure that transport providers, including those via SPT, are following all	
	necessary government and industry advice to reduce risk e.g. encouraging	
	compliance of wearing face coverings age 5 and over. From Feb 21,	
	2mtr distancing applies in secondary school transport (recognising that	
	this may not be possible for school taxis). Will be reviewed as phasing	
	back increases.	
•	Any works, repairs or maintenance carried out within the school should	
	adhere to physical distancing and hygiene measures.	
•	Recognise concerns raised by members of the BAME community including	
	supporting individual requests for additional protections in discussion with	
	staff, pupils and families.	
•	No additional general protections are required for particular categories of	
	children or staff, such as those with underlying health conditions. However	
	changes in the national protection levels, in individual circumstances	
	and/or in line with any specific clinical advice may require a review of	
	individual risk assessments. Staff should use the South Lanarkshire Council	
	Self-Assessment form to help inform discussion with line managers on	
	these issues.	
•	Use floor markings, signage and posters throughout the building to keep	
	employees informed on things like maximum room capacity and direction	
	of travel.	
•	Designate a well ventilated room as an isolation space for anyone showing	
	symptoms of infection. They should be sent home as soon as possible.	
•	Limit face to face meetings indoors.	
•	Adult visitors to the school should be strictly limited to those that are	
	necessary to support children and young people or the running of the	
	school. Those providing essential services e.g. psychologists, social work	
	should be able to visit schools with appropriate mitigations, adherence to	
	local controls and in co-operation with the service provider. A register must	
	be kept.	
•	Adhere to Education Resources Guidance for Visiting Services and	
	External Agencies Procedure Note - Revised October 2020	

		<ul> <li>Staff and pupil movement between schools including peripatetic / supply staff should be kept to a minimum.</li> <li>Staff have clear advice on dealing with enquiries from the public.</li> <li>Provide all necessary support to those requiring it to follow these measures e.g. for those with visual impairment or limited mobility.</li> <li>All employees should be aware of, and adhere to, Transport Scotland's latest Advice on How to Travel Safely including car sharing. Car sharing should be avoided wherever possible. https://www.transport.gov.scot/coronavirus-covid-19/transport-transition-plan/advice-on-how-to-travel-safely/#section-63888</li> </ul>		
Additional Local Concerns To be completed by assessor				
<ol> <li>Increased risk of exposure to Covid- 19 infection as a result of poor personal hygiene</li> </ol>	12 High	<ul> <li>Ensure that all staff, pupils and visitors are aware of the high importance of frequent and thorough handwashing / sanitising. Schools should identify opportunities to reinforce the importance of hygiene measures throughout the school day.</li> <li>Ensure that signage is applied appropriately, including in toilets.</li> <li>Ensure that all staff and pupils sanitise/wash their hands frequently with soap and water for 20 seconds and dry thoroughly.</li> <li>Ensure that sufficient handwashing / sanitising facilities are available for those entering and exiting, including for visitors.</li> <li>Ensure that all staff and pupils clean their hands on arrival at the setting, before and after eating, after sneezing or coughing, when changing classrooms, when entering/leaving the building, before/after eating and after using the toilet.</li> <li>Ensure that all staff and pupils use a tissue or elbow to cough or sneeze and use lidded bins for tissue waste, cleaning hands afterwards and ensure bins are emptied regularly so as not to excessively fill up .</li> </ul>	4 Low	

man and a factor of the factor	
• Ensure that help is available for staff and pupils who may require assistance	
in accessing hygiene facilities.	
<ul> <li>Anti-viral spray and paper towels provided for regular personal use at</li> </ul>	
computer keyboards, photocopiers, telephones and other equipment.	
<ul> <li>Ensure that all staff and pupils are encouraged not to touch their face</li> </ul>	
including mouth, eyes and nose.	
Appropriate mask hygiene procedures must be followed. Hands should be	
washed or sanitised before putting mask on and when removing it.	
Disposable masks should be placed in the bin after removal. Fabric face	
coverings should be kept in an air tight container or sealed bag. They should	
not be placed on surfaces.	
Ensure that help is available for children and young people who have	
trouble cleaning their hands independently e.g. adult assistance or use of	
sanitiser rather than soap and water if easier.	
<ul> <li>Consider how to encourage young children to learn and practise these</li> </ul>	
habits through games (no outward singing).	
<ul> <li>No sharing of food and drinks including milk.</li> </ul>	
• Water dispensers can be used with care and those doing so should sanitise	
their hands before and after use. To reduce usage, staff and pupils should	
bring their own filled bottle each day which can be topped up during the day	
if required. Direct access by primary aged children should be avoided, unless	
age appropriate. Supervision may be necessary.	
Personal Protective Equipment (PPE)	
• Ensure sufficient staff have access to, and are aware of, procedures for	
ordering replacement PPE in a regular and timely manner.	
<ul> <li>The majority of staff in education settings will not require PPE beyond what</li> </ul>	
they would normally need when supporting children and young people in	
their care. PPE will be provided in the following specific circumstances:	

Work with children and young people whose care routinely already involves	
the use of PPE due to their intimate care needs.	
Where a child, young person or other learner becomes unwell with	
symptoms of coronavirus and needs direct personal care or there is risk of	
splashing from a cough, spit or vomit. (The child, young person or staff	
member feeling unwell should also wear their face covering or a mask if	
possible).	
• Any other task that would routinely involve PPE e.g. providing first aid.	
• First aids kits and the area where they are stored should ensure supplies to	
deal with covid symptoms – masks, gloves, aprons and visors.	
<ul> <li>Aerosol Generating Procedures (AGP) – in a small number of complex</li> </ul>	
medical cases staff may be involved in procedures with an increased risk of	
transmission through aerosols e.g. tracheostomy care.	
Face Coverings (should not be confused with PPE masks)	
<u> </u>	
• Face Coverings can be worn by anyone wishing to do so in any part of the	
school.	
<ul> <li>Unless exempt, face coverings should be worn by adults wherever they</li> </ul>	
cannot keep 2m distance from other adults and/or children and young	
people. Transparent face coverings should be considered where required.	
<ul> <li>Early Learning and Childcare staff do not need to wear face coverings when</li> </ul>	
interacting with nursery children.	
interacting with hursery children.	
Face coverings should also be worn in the following circumstances:-	
<ul> <li>At all times when adults in early years settings, adults in primary schools,</li> </ul>	
and adults and young people in secondary schools are moving around in	
corridors, office and admin areas, canteens (except when dining) and other	
confined communal areas, (including staff rooms and toilets)	

		<ul> <li>By parents and other visitors to all school sites (whether entering the building or otherwise), including parents at drop-off and pick-up.</li> <li>In line with the current arrangements for public transport, where adults and children and young people aged five and over are travelling on dedicated school transport.</li> <li>School Support Assistants and those supporting children with Additional Support Needs, who may routinely have to work within two metres of primary, secondary or ASN school pupils, should wear face coverings as a general rule. However, the use of opaque face coverings should be balanced with the wellbeing and needs of the child, recognising that face coverings may limit communication and could cause distress to some children – appropriate use of transparent face coverings may help in these circumstances.</li> <li>Staff, children and young people should receive clear guidance on how to put on, remove, store and dispose of face coverings.</li> <li>Consider regular messaging to staff, parents and learners about face coverings, including guidance or practical demonstrations to support efficacy of wearing. Consider any equity concerns and have a contingency supply.</li> <li>Pupils must be reminded to comply with wider societal rules in the wearing of face covering and of group sizes when entering shops.</li> </ul>		
Additional Local Concerns To be completed by assessor				
3. Increased risk of exposure to Covid- 19 infection as a result of poor environmental hygiene	12 High	<ul> <li>Weekly routine of electrostatic spraying in all areas.</li> <li>An enhanced cleaning regime will be in place including an increased focus (at least twice daily (SLC undertaking 3 times)) on high intensity touchpoints such as door furniture (push plates, handles), wall furniture (light switches, sockets) and sanitary ware to ensure those spaces are sanitised more regularly using product which is active against bacteria and viruses.</li> </ul>	4 Low	

<ul> <li>Ensure more frequent cleaning of rooms/areas that must be used by</li> </ul>	
different groups including staffrooms(Since August 20 this has involved	
increased cleaning levels and a move from visual to sanitised cleans. Also	
includes increased cleaning within nursery and ASN settings).	
<ul> <li>Introduce a clear desk policy and remove unnecessary items from</li> </ul>	
classrooms and work areas to ensure all areas are more easily cleaned.	
• Remove soft furnishings, soft toys and toys that are hard to clean (such as	
those with intricate parts). Children and young people should be	
encouraged not to bring toys from home or share personal belongings.	
• Ensure where possible that movement of individuals between work stations	
is minimised and where work stations are shared there is cleaning between	
use.	
• Staff should use their own crockery/cutlery in staff areas and ensure these	
are cleaned using detergent and dried thoroughly before being stored for	
re-use.	
• Limit the use of shared resources, including those usually taken home.	
Keep bags off desks and worktops. Any shared materials and surfaces	
should be cleaned more frequently.	
<ul> <li>Schools can consider additional mitigation from surface contamination of</li> </ul>	
jotters, textbooks and library books by 2 methods, evaluate the most	
appropriate:-	
<ul> <li>quarantining these for 72 hours, or</li> </ul>	
<ul> <li>via careful hand washing/sanitisation before and after use.</li> </ul>	
<ul> <li>Anti-viral spray and paper towels will be provided for regular use of shared</li> </ul>	
equipment such as computer keyboards, photocopiers and telephones.	
Avoid the sharing of telephones or radio devices.	
Consider additional cleaning arrangements for specialist equipment e.g. in     practical subjects or ASN provision of a SSERC subject or Energy in	
practical subjects or ASN provision e.g. SSERC guidance or Enozo spray in	
ASN and Early Years settings.	
Lidded bins for tissues are emptied throughout the day so as not to	
excessively fill up, and there are adequate disposal facilities for cleaning	
staff.	

- Consider regular meetings with cleaning staff to confirm cleaning regimes, adjust as necessary to take account of high traffic or problem areas and ensure that levels of supplies are maintained.
- If a pupil, member of staff or visitor has been confirmed as being tested positive for COVID-19 Facilities Services will ensure that enhanced cleaning within the area is provided where appropriate.

## <u>Ventilation</u>

Seek to increase ventilation levels by actively opening windows and doors where practical and safe to do so. (Heating systems have been increased in both temperature and length of running time to assist with maintaining room temperatures).

- Arriving in your classroom leave the door open (will also reduce contact with door handles). Ensure no obstructions by opening blinds/curtains and removing any items blocking vents.
- When pupils arrive open windows to their fullest as allowed by the restrictor. Top windows should be open where possible.
- Should pupil occupancy levels exceed 25 in the secondary sector then windows should be opened to the maximum available, subject to any restrictors, for as long as possible.
- If the room is cold and feels well ventilated some windows can be closed. However, those windows which have the least impact, relative to causing draughts, should remain open to at least the minimum amount.
- At lunchtime, breaks and in between classes windows should be opened fully for 5-10 mins.
- Lower temperatures and likely windy conditions in the winter months will increase the natural ventilation through openings. This means that partially opening windows and doors can still provide adequate ventilation at the same time as maintaining room temperatures.
- Consider flexibility in permissible clothing while indoors and the benefits of re-designing seating plans to reflect individual pupil or staff temperature preferences.

		<ul> <li>At the end of the day, remember to close all windows for security reasons.</li> <li>Internal fire doors should not be held open unless they have a hold open and self-closing mechanism which responds to a fire alarm activation.</li> <li>Not all classrooms have opening windows and the flow of air in mechanical systems are designed to take account of normal occupancy capacities and have been set to run longer, however as with other classrooms consider leaving doors open to further enhance air flow.</li> <li>Any specific issues should be reported in the normal way to allow a member of the technical team to carry out an assessment of any action required.</li> </ul>		
Additional Local Concerns To be completed by assessor				
4. Increased risk of exposure to Covid- 19 infection as a result of poor communication	12 High	<ul> <li>All staff have been briefed on new working arrangements and understand the role they have to play.</li> <li>All staff have the opportunity to discuss new working arrangements on an ongoing basis and are aware of how to report concerns. Designate a member of staff as 'Covid Officer'. (Head Teacher)</li> <li>All staff are aware of, and have access to, the full range of Corporate guidance on managing risks associated with Covid-19 including Education Resources Safe System of Work – Covid-19.</li> <li>Staff understand Covid-19 infection symptoms and what to look out for and should be supported to follow up to date Health Protection advice.</li> <li>Zero tolerance of symptoms should be in place and staff will follow strict compliance with current Government guidance in relation to Test and Protect and restrictions on movement/self-isolation.</li> <li>All staff and learners must know that they must inform a member of staff or responsible person if they feel unwell with symptoms of Covid-19.</li> <li>All visitors including parents, contractors and suppliers are advised not to enter the premise unless previously agreed by the school management team. Where agreed, they are made aware of local protocols for entering</li> </ul>	4 Low	

	the premises and safe use of facilities such as toilets, and must sign the	
	register.	
•	The school provides regular, timely and clear communication about the	
	approach they are taking to recovery.	
•	All pupils and parents are aware of the arrangements and controls within	
	the school and their responsibility in taking these forward.	
•	Consider parental surveys/communications to encourage walking, cycling,	
	scootering, park and stride and remind parents of responsible parking, drop	
	off and pick up.	
•	The school has arrangements for good quality dialogue with pupils about	
	the measures and any changes.	
•	The school will ensure its approach co-ordinates with national and local	
	guidance to help promote a coherent feel to provision of services and will	
	designate a member of staff as Covid Officer to help take this forward.	
•	Senior leaders have systems in place to receive, review, retain and share all	
	relevant information issued locally and nationally including Information	
	Updates, Newsletters and Procedure Notes.	
•	Senior leaders understand the agreed process for managing a suspected	
	case of Covid-19 infection.	
L	ateral Flow Testing	
•	Staff have access to lateral flow tests to self test at home twice weekly.	
•	Staff have instructions on what to do in the event of a lateral flow positive	
	test, negative test or void result.	
•	Staff report lateral flow test results online at <u>www.gov.uk/report-covid19-</u>	
	result or by telephone on 03003032713	
<u> </u>	Test and Protect	
•	The effective application of Test and Protect in the school environment will	
	be an important means of preventing any spread of the virus and will be led	

Additional Local Concerns To be completed by assessor				
<ul> <li>Additional Local Concerns To be completed by assessor </li> <li>5. Increased risk of exposure to Covid- 19 infection risks through practical activities </li> </ul>	12 High	<ul> <li>Review existing risk assessments and safe systems of work for practical subject areas taking account of the controls above and Education Scotland National Improvement Hub – Practical Activities Guidance.</li> </ul>	4 Low	
		<ul> <li>by the local Health Protection Team. School leaders should understand the process for managing a confirmed case(s) of Covid-19 infection and how to engage with their local Health Protection Team (HPT) via SLC Education Resources. Adhere to 'Heads of Establishment Support Guide for Managing Positive Cases of Covid-19 in Schools and Educational Settings'.</li> <li>Ensure staff are familiar with Test and Protect advice. Staff members who have symptoms should contact NHS to arrange to be tested on 0800 028 2816 or www.nhsinform.scot</li> <li>The processes for case management are communicated to and understood by staff, including the roles of Public Health and SLC.</li> <li>Support for those who have underlying health conditions</li> <li>Clinically vulnerable staff (including those who have underlying health conditions, but who would not be on the shielding list) can continue to work in schools, subject to a dynamic risk assessment confirming it is safe to do so.</li> <li>Keep the risk of exposure as low as is practically possible to pregnant women, particularly in the third trimester Normal pregnancy risk assessments should also be undertaken, and appropriate attention paid to mental health and wellbeing.</li> </ul>		

		_			
6. Additional Risk Areas           Additional Local Concerns           To be completed by assessor	12 High	• • •	Review all risk assessment controls in the context of the current protection level for the establishment /local area (see section below) and the associated enhanced measures. Consider Personal Risk Assessments for those employees deemed clinically vulnerable by NHS. Review existing Fire Evacuation Plans including PEEPs. Review existing Health Care Plans, risk assessments and Behaviour Assessment and Support Plans (BASPSs) for children with more complex needs taking account of the controls above. Also, consider whether the at- home self-test programme will be appropriate for individual senior phase pupils (taking into account the potential of support for parents or guardians). Ensure that staff are fully aware of the wellbeing supports available to them including those via South Lanarkshire Council's Employee Assistance Scheme. Consider in-school support mechanisms for staff to talk, share concerns, apply wellbeing approaches. Consider new guidance on supporting the mental health and wellbeing of children and young people. Education Scotland have provided complementary information on Mental health & wellbeing : supports for practitioners, parents, carers & young people. Property inspection arrangements will continue including required checks such as water quality, utilities, lifting equipment and fire controls.	4 Low	
<ul> <li>7. Enhanced and targeted protection:</li> <li>(a) At home asymptomatic testing</li> <li>(b) Levels 3 and 4 and 'Lockdown'</li> </ul>		Be	E-Home Asymptomatic Testing eing phased in from Feb 2021 for all staff in schools/EY settings and senior mase pupils. Although voluntary all are encouraged to participate in this scheme		

## \*\*Requirement to be aware of when Lanarkshire may be operating at these levels)

In addition to the controls areas outlined above, these enhanced protective measures should also be applied for schools within a local area that has been designated as Protection Level 3 or 4.

These measures have been designed to enhance protections in areas where evidence suggests there may be higher potential risks as prevalence increases, including for those people who are at the highest clinical risk.

It is important to note that these measures are in addition to, not instead of, the protective measures set out above. in order to support infection control measures where people may be asymptomatic and in attendance.

Headteachers / HoC should review NHS/SLC guidance on At Home Lateral Flow Testing arrangements and complete the **SLC Safe Use of At Home Lateral Testing generic risk assessment**. Controls will include:

- Ensure all staff and relevant pupils are aware of the scheme and asked to participate.
- Ensure consent form signed and instructions on testing and recording of results provided.
- Ensure safe storage of kits and record the distribution of kits in accordance with guidance and with adherence to physical distancing.

## Protection Level 3 – Enhanced protective measures

- All staff and pupils should wear a face covering in classrooms during lessons in the senior phase.
- Parents should discuss with their GP or clinician whether children with the highest clinical risk should still attend.
- The majority of workplaces can be made safe for staff. To ensure this
  remains the case individualised risk assessments for school staff members
  with the highest clinical risk must be in place and updated appropriately.
  Staff should speak with their manager to ensure all appropriate protections
  are in place.
- Decisions on appropriate protections should be informed by individual risk assessments, and may include protective measures in the workplace, mitigations such as working remotely (e.g. at home or in different settings) or carrying out different tasks within their usual workplace. If protections cannot be put in place, staff can discuss whether they need a fit note with their GP or clinician.

<ul> <li>The current advice is that children on the shielding list should not attend in person. However, there will be further consideration of how individualised risk assessments can be used to maximise school attendance, and remove barriers to access to regulated childcare services, for children who continue to shield during Level 4 restrictions. It is expected that these should be informed by the secondary care (hospital) clinical team caring for the child or young person.</li> <li>The majority of workplaces can be made safe for staff. To ensure this remains the case individualised risk assessments for school staff members with the highest clinical risk must be in place and updated appropriately. Staff should speak with their manager to ensure all appropriate protections are in place.</li> <li>To provide additional assurance, the Chief Medical Officer will issue a letter which is similar to a fit note. This letter can be used in the few cases where, following updating of risk assessments and discussions on concerns with their employer or an occupational health adviser, it is not possible to make a workplace safe for staff. Being in receipt of one of these letters does not automatically mean that staff should not attend work if appropriate protections are in place.</li> <li>Decisions on appropriate protections should be informed by individual risk assessments, and may include protective measures in the workplace.</li> <li>Decisions on appropriate protections should be informed by individual risk assessments, and may include protective measures in the workplace.</li> <li>Schools should be prepared to engage with enhanced testing responses to COVID-19 outbreaks in schools, where recommended by the incident Management Team.</li> <li>Physical education within school settings should only take place out of doors. Schools should consider what types of activity and dotting may be most appropriate in view of weather conditions. While physical education should contine to be considered a prio</li></ul>
--

then schools may use their judgement as to whether it is safe for children	r
then schools may use their judgement as to whether it is safe for children	
to be outside.	
Pausing of the provision of non-essential activities or clubs outside the	
usual school timetable.	
Lockdown	
Attendance in schools should be restricted to:	
Vulnerable children and children of key workers only.	
Only staff who, in the judgement of the local authority and schools, are	
required to attend in person to give effect to revised school reopening	
arrangements and support remote learning should do so.	
Take advantage of the space in primary and secondary schools, e.g.	
during the period where open only for keyworker/vulnerable children, to create 2 metre spacing between pupils where possible.	
All staff and pupils attending schools during lockdown should continue	
to implement and strictly observe the mitigations set out within this	
risk assessment.	
A register of children and rota of staff in daily attendance must be	
maintained to aid in contact tracing should a positive case arise.	
Schools may, if absolutely necessary, re-group vulnerable pupils and	
children of key workers (i.e. move them into different groups to those	
they were in prior to lockdown). This should be kept to the minimum	
necessary to ensure effective, safe learning and teaching arrangements	
are in place. It should be done in a way which meets children's needs	
and enables them to engage in learning and teaching which is age and	
stage appropriate. Upon a full return to school, children and young	
people may return to their original groupings.	
<ul> <li>All staff, student teachers and pupils should continue to be vigilant for</li> </ul>	
coronavirus symptoms.	
<ul> <li>Staff at the highest clinical risk (individuals on the shielding list) should</li> </ul>	
work from home, and if they cannot do so, they should not work.	

<ul> <li>Children and young people at the highest clinical risk (individuals on the shielding list) should not attend school in person.</li> </ul>

## Note on Manager Actions:

Heads and Managers should use this assessment to cover general and local matters specific to their establishment. This local information can be added above to create an overall action plan to help ensure everyone understands what is required of them and how they can best protect themselves and others.

You should review this document in partnership with staff and their representatives, adapt as necessary for your establishment, sign off and share with all persons involved. It is good practice to review these arrangements on an ongoing and regular basis with your team.

<ul> <li>Specific Additional Guidance/Notes:</li> <li>Ed Res Covid_19 Pupils Returning Safe System of Work</li> <li>Current public health approach on clinical vulnerabilities</li> <li>Government direction and guidance on required action available from www.gov.scot/coronavirus-covid-19/</li> </ul>			Risk Matrix. Use the matrix below to give a general evaluation of risk, based on the most likely outcome.
