STEM

During the second term, the children have been focusing on electricity in STEM. They have been exploring different types of electricity and the dangers of being around it. They were successful at creating their own circuit with playdough!

Air Space Challenge:

The Primary 6 and 7 children should be so proud of their entries into the Air Space Kinross Challenge - so much effort and skill has been put into this! They each received the Young STEM Leader Award as a result of all of their hard work!

Sphero Indi in action!

Since getting a Sphero Indi Kit for the school, each class has had the chance to explore these and build on their coding skills, well done everyone! Have a look at the pictures to see the pupils in action!

Term 3
NEWS

Pupil Voice Group STEM Day:

The STEM pupil voice group have organised another full school STEM challenge day for next term after a very successful day in Term 2. We cannot wait to see what ideas they have!

Chemistry:

The learners will have a focus on learning about chemistry in Term 3 - keep an eye out for some pictures!
