

Love Autism

Session 1

What is Autism?

What can this 'look like' day to day for my child and how can I help?

Almost all autistic children have difficulties across a range of areas. Understanding what these challenges might be, and why they happen, will help us to support our young people as much as possible.

Join me (Anne Love) for a cuppa and a natter, get to know other parents/carers and leave our session with more knowledge and understanding and the confidence to give the strategies I suggest a go.

Where? Crawforddyke Primary School

When? Tuesday 27th October 6.00pm – 7.30pm

Anne Love is renowned in the field of autism, particularly for her work in SLC schools as an Autism Outreach Teacher. She has been working with our school and community for the last 8 years, offering support, advice and guidance.

This session is open to anyone who has a child with autism (or are on the neuro-developmental pathway). Carers, education practitioners and family members/friends are also invited!
