The Gap:

Please provide an overview of your school's poverty related attainment gap making reference to data.

Look at the 5 key indicators for closing the poverty related attainment gap:

Attainment, Attendance, Exclusion, Participation and Engagement.

What is the gap for these 5 areas? How does your data for SIMD 1-2 + FME compare with your data for SIMD 3-10 without FME.

Within the school we currently have 19 pupils who live in SIMD 1&2 and/or are in receipt of Free School Meals, this is 9% of our school population. The graphs show our poverty related attainment gap at June 2018. This information is a collation of the % of children who are attaining their expected CFE levels at P1, P4 & P7 according to teacher professional judgement, which is based on going class assessments and well as class work and activities.

Attainment

Numeracy

We currently have a significant attainment gap in Numeracy for pupils living in SIMD 1&2 and/or in receipt of Free School Meals, which increased during session 2017/18. We are aware of this gap and during session 2018/19, pupils were supported through targeted interventions within class as well as, for some children, additional support out with the classroom. This gap has reduced during session 2018/19, and our School Improvement Plan for session 2019/20, identifies further supports and improvements we are planning to make.

Reading

The gap within Reading is decreasing over time with overall attainment remaining static. A focused approach to School Improvement and ensuring our children are receiving high quality teaching across the school. We have introduced some targeted interventions aimed at improving decoding, phonics and sight vocabulary.

Writing

During session 2017/18, there was a significant gap in attainment, this can, in part, be directly linked to the attainment of 3 pupils. Due to our attainment in writing across the school, this was part of our whole school improvements during session 2018/19. Our pupils are more effectively supported with lessons focusing on genre and specific knowledge and skills. Staff have a greater understanding of genre features as well as benchmarks. Some pupils have also been supported using a spelling programme aimed at pupils with specific spelling difficulties.

Talking & Listening

Our gap is declining over time and we are continuing to focus on specific skills for identified individuals.

Attendance & Exclusions

Our children living in SIMD 3-10 with no FSM attend better than children living in SIMD 1&2 and/or in receipt of FSM. Children living in SIMD 1&2 and/or in receipt of FSM had less exclusions than our children living in SIMD 3-10.

Participation & Engagement

Our pupils are all involved in the life of the school through our Pupil Voice groups. All children are involved in the decision making within the school as well as actively contributing to the life of the school. All children expressed enjoyment in these groups. All children feel increasingly empowered within the school to contribute to our successes.

We have a range of extra-curricular activities on offer, the majority of which are run by Active Sports Co-ordinator. We have been approached this session by parents who are looking to support this further during session 2019/20.

Our participation levels at Extra Curricular Activities (out with the school day) are approximately 37%, activities within the school day (lunchtime) have a higher participation level at 52%.

We communicate with our parents through a variety of methods. Our new Twitter feed is proving to be very popular and gives parents and members of the local community an insight into the life of the school. Our new website is informative and easy to navigate. Newsletters and Parent Guides are distributed on a monthly basis. This session we have introduced "Come & See" sessions, these have been very successful and will be extended in session 2019/20.

Sustainability:

Please outline how you plan to mainstream or exit initiatives if required to enable sustainability in the longer term.

We aim to build on the Pupil Equity Funding by improving Learning & Teaching across the school. All teachers will be clear about the purpose of learning and the skills the skills are developed. Understanding of relevant pedagogy will be increased. All learning is underpinned by skills development and real life opportunities.

More rigorous tracking and monitoring is in place to allow for early identification of pupils who are missing out as well as to ensure effective support and challenge is offered to all pupils across the school.

Having undertaken a varied programme of Continuous Professional Learning E.g. Active Literacy, Big Maths 5 Minute Box, etc. staff will have the confidence, knowledge, skills, capability and capacity to ensure work continues if/when funding stops. An increased number of staff have increased their ability to lead in-house training. All resources to support these approaches have been purchased sand so the school is better resourced.

The whole school community have and will continue to benefit from improved learning & teaching in all areas with a focus on Literacy and Numeracy.
