

Kirkton Primary School Weekly Notices

Week Beginning Monday 19th October 2020

Lunch Menu –
Week 1

Lunch Menu

From the 26th October 2020 SLC will be extending their current menu to run until the end of March 2021. This PDF will be available on the council's website and will be emailed to all parents and added to the app and school website. SLC will no longer be issuing the paper versions of this in the current climate.

Due to the current uncertainty of the coronavirus pandemic and the effects that the track and trace can have on catering staffing, we have introduced a 'standby menu' which is an emergency menu selection that can be introduced at short notice. The standby menu will be served in reusable boxes which will have the whole lunch included within. This will only be introduced if required in certain adverse situations.

Winter Weather

In line with guidance from Scottish Government as well as South Lanarkshire Council, we will continue to be learning and playing outdoors, please ensure your child comes to school dressed for the weather conditions on that day. It may be helpful for pupils to have a spare pair of socks, gloves etc. in their bag.

As previously indicated, we have been directed to keep windows open to provide ventilation throughout the day, pupils are welcome to leave a warm school jumper on their coat peg in case they are cold.

If you have any questions please contact us via 01555 772466 or gw14kirktonpsoffice@glow.sch.uk

Face Coverings

In line with information from Scottish Government, staff at Kirkton will be wearing face coverings more frequently in school. This includes in class, in the playground as well as corridors and canteen areas.

Please discuss this with your children as we want to ensure we are keeping each other safe.

Please download the app to keep up to date with what's happening.
