

## **Appendix 4**

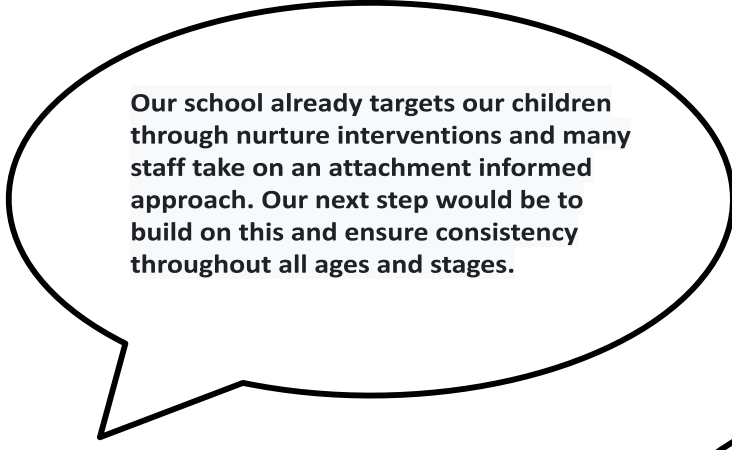

During a CAT night on Attachment-Informed, Trauma Sensitive approach, staff stated the following about beginning to implement this across the school.

I would be eager to be involved in leading and supporting any changes within our establishment to ensure that we can adopt an Attachment-Informed, Trauma-Sensitive approach. Please let me know if I can be of help.

I think we already adopted many priorities to support Attachment and Trauma Informed practice however it would be beneficial for some additional training to support confidence within staff but also reiterate the expectations for staff/school to ensure a consistent approach.

Our school already targets our children through nurture interventions and many staff take on an attachment informed approach. Our next step would be to build on this and ensure consistency throughout all ages and stages.

We have all the building blocks to create an attachment informed trauma sensitive approach - we need to truly come together as a staff to ensure that it is put in to practise and that it is at the heart of our teaching and learning.
