Agenda Items	Key Points	Comments	Action
1. Discuss the staff survey for 'See the Whole Person' pledge.	Discuss the questions included in the survey and create Google Form to send out to staff.	The questionnaire is provided by SLC and the multiple choice options are a requirement to achieve the pledge. Staff felt that an additional box (which isn't a requirement) could be added under each question to provide staff with the chance to suggest any ideas or note any evidence that we are already doing to achieve the pledge.	F. Mackenzie to edit staff survey and send out to staff via email.
2. See The Whole Person Quality Indicators	Create an action plan to achieve 'See the Whole Person' using the Accreditation Toolkit and Action Plan Template.	From the discussion around the questionnaire, we highlighted areas of good practice that we have included in the accreditation toolkit.	Working group will create Action Plan template during the next meeting.
3. Download 'Good Practice Guide' resources and update the shared system.	Using the 'Good Practice Guide', download resources. Add these to the KP Share Point to support staff.
