Hello everyone,

We are continuing to get things ready for starting the reading for enjoyment lending library. So far we have the pupil's library cards, punchers, book sign in/ out sheets and lots of new and used books. Now we are wanting to order storage units or boxes that you and your stage partner may need for your library. This book storage would probably sit outside your classroom in an area that is close to classes that share the same stage. Due to the logistics of my stage partner being in the outdoor classroom we have decided to run our lending library from our individual classrooms. This may be something that you may decide to also do. Can you and your stage partner/s decide what storage you will need, if any. To keep costs low can you look around the school for storage that you maybe able to use. This will save the school money and help us become a more sustainable school.

Please can you let either myself, Nicola or Dawn know by Friday 19th September so that items can be priced and bought. We would like to start the lending libraries as soon as possible. The pupils from my class last year will 'sell' it to the whole school during an assembly and be available to help run the library in your class for a few days until your class know what to do.

I hope this all makes sense but if you have any questions please just ask.

Lisa P and Nicola x

P.S. On another note, I just wanted to say thank you to everyone who has contributed to the sustainability table located outside the staff room. My clear out continues so keep looking at the table! If you have nothing to swap and there is something on the table that you know you could make good use of then please just take it.
