

Good morning

Time is once again, speeding past and we need to now think about the **Easter** Service.

To keep things simple, following the school & nursery show, I thought it best to use last year's script and songs. I've tweaked it slightly but it is basically narrators and songs.

Many of the children will remember the songs from last year, which will also hopefully help with things too.

The songs have been divided up so that all stages have the same number of songs. Almost all require a verse and the chorus to be learned (with individual verses also being divided up). If children know the verses that have been allocated to other classes, they should feel free to join in too.

I've put paper copies of things required in your pigeon holes. They and the powerpoint for the songs are also attached to this email.
