Numeracy	Aaron and Brooke working on Second Level Year 3 but requiring significant support. Many gaps in their learning and are not on track to achieve by June. Daniel has a high absence rate and has missed concepts. Kiyah's focus and concentration is impacting her ability to understand concepts. David P requires more time to pick up key teaching points. Heather is working well at this level and is on track to achieve. Angus is working at First Level Year 3, however, Jacqui doesn't feel that this is an accurate level for him. Concrete materials are used to support, however he needs someone to sit one to one to use these aids. Erin, Lucy and Mason are working at Second Level Year 1. Lucy may not achieve this by June.	Aaron and Brooke are being monitored. Interventions such as extra time, concrete materials, smaller volume of work and interactive games. Lucy being monitored in Numeracy.
