MATHS AND NUMERACY	LITERACY	HEALTH & WELLBEING
<p>We will continue to explore number and consolidate our learning on numbers 1-20. We will be using strategies such as verbal, concrete, pictorial and abstract methods to help us with concepts such as early addition and early subtraction.</p> <p>We will investigate money and explore how this is used in the real world. We will also be investigating time and explore different ways to tell the time.</p>	<p>We will continue to learn phonemes and common words. We will soon have completed all initial sounds and be moving onto joined phonemes. We will continue to use our knowledge of phonemes to help us recognise and blend sounds to make words. This will help our reading journey progress, along with regular consolidation of common words. We will continue to work on letter formation within writing and will start to independently build sentences.</p>	<p>In PE the Children will:</p> <ul style="list-style-type: none"> <li>• Use and share equipment with others in a group</li> <li>• Practise turn-taking, cooperation, and playing fairly with others.</li> <li>• Enjoy participating in small games that encourage confidence and teamwork.</li> </ul>

LEARNING ACROSS THE CURRICULUM			
LEARNING ACROSS THE CURRICULUM			
We will be having a short Scottish focus at the beginning of this term.			

We will also be introducing the topic 'When Granny and Grandpa were young' which will allow us to explore the way in which things have changed over the years. We will investigate lots of different things such as old toys, clothes etc and compare the differences and similarities between our lives now and years ago. We will encourage lots of home engagement within this topic, letting the pupils learn from what their own family members had/did years ago.
