GradU8 College Courses Update

Dear Parent/Carer,

We have received an update from Youth Employability regarding this year's GradU8 college courses. Unfortunately, due to restrictions and safety measures within colleges, Youth Employability have been unable to agree and arrange the delivery for most of the college options for this year with the exception of construction. This is extremely disappointing and I know you and your young person will also feel this way, however, this decision is out with our control.

As a result, we have started to recourse pupils into an alternative option based on their original options form and in discussion with SMT. Youth Employability continue to work with colleges to hopefully organise taster sessions later in the year which we will inform pupils of when we are able to do so.

We are awaiting information on the possibility of the construction course being delivered and we hope to have a clearer picture of this by the end of this week. Pupils will be updated on this as soon as we receive an update from Youth Employability. We hope that if the course delivery is agreed, pupils will commence their course on **Monday, 14th September.**

Yours sincerely,

David Robertson
