Chapter 34 – answers

Remember, a summary is just the **main** points of the story. Your answers might be slightly different. I have just put them in bullet points but you should try to write in sentences.

- Lucien told Sharpe that the book would not work for him and realised he was trying to copy it. He made fun of him.
- Lucien got the book back but Sharpe challenged him; if Sharpe won he would get the book but if Lucien won, Sharpe would have to stop stealing time from people.
- They started to fight, Sharpe was stronger. He threw a dagger and hit Silver in the shoulder.
- Silver heard Michelle's voice and deflected the last dagger. It hit Michelle in the heart, killing her.
- Sharpe blamed Lucien and Lucien left with the book.

For the next part, you should write in full sentences, but I will give the main ideas in bullet points.

- Lucien learns that Sharpe steals time from people because he thinks he is better than everyone else. Lucien knows he takes people's imaginations because they don't realise it's gone.
- Lucien was upset when Michelle was killed, he said they both did it and that it was an accident. Sharpe didn't seem too bothered by it, acting calm and having a drink. When he called Lucien a 'murderer' he had a 'terrible smile on his lips' like he knew he could use this against Lucien.
