

The map shows the noon temperatures in some European cities one day in January. Each temperature is given in degrees Celsius (°C).

- Which city was (a) the warmest (b) the coldest?
- Which city was warmer:
 - London or Athens
 - Bucharest or Marseilles
 - Vienna or Bucharest?
- List the cities colder than London.
- Use the graph about Stockholm to find
 - the coldest month
 - the June temperature
 - the January temperature
 - months with the same temperature.
- Draw a graph to show these average monthly temperatures, in °C, from January to December in Moscow:

-10°, -10°, -6°, 4°, 12°, 15°, 18°, 16°, 10°, 4°, -2°, -8°.

Minimum temperatures in Stockholm
