Daily mental maths tasks on  
Sumdog

Learning Across the Curriculum: Italy

From now until October, we will be learning all about  
Italy. We will explore a new Italian city each week,  
learning about the geography, history and culture of  
that particular city. This will be the stimulus for our  
social studies lessons as well as additional lessons in  
literacy, numeracy, art and technologies. For example:

**Literacy** - Tourist information booklets, writing recipes

**Maths** - Roman numerals, scale on map, compass points,  
distance between cities.

**Art** - Renaissance artists

**Technologies** - Google maps, using TripAdvisor, junk  
models of famous landmarks.
