Comm Council - waterproofs, ropes and tarps

Xmas Newsletter - any additions just e-mail Alex Stark

Party games in pods - increase in costs

Homework -

1. would printed sheets help?
2. results from survey - 29 responses, 15 liked it on Google, 14 didn't like it on Google. Preference for paper 17, 12 preferred online

Some of the challenges, for some families limited number of devices per household

Feedback question - difficult to know whether the teacher has seen the homework as it's not obvious.

Use of jotters, guidance from 30th October, can use jotters so long as they sanitise their hands

Preference for no homework in December and June.

Other items on homework;

- can there be some consistency when it is set and when it is to be handed in
- Ideally Monday given-out and Friday given-back
- there were more comments about the lack of feedback from teachers
- In response, acknowledgement that P4/5 are consistent (Monday and Friday) and this was much appreciated
- Lastly, just a note to say one teacher received 6 e-mails between 6pm - 10pm the night before homework was due, which is not ideal
