

## Health and Wellbeing

Our SHANNARI indicator this term is Healthy. We will be looking at the Eatwell Guide and identifying the five different food groups and the types of food that are in each section. The children will be learning foods they should eat lots of and food they should eat less of. The children will choose and prepare healthy snacks for Snack and Chat and create a Healthy Snacks Recipe Book. We will also learn about the different teeth they have and the importance of brushing their teeth.

## Technologies

The children will learn or practise logging onto a Chromebook using their own password and accessing different icons and programmes. They will develop food preparation techniques and make a variety of food and snacks. They will also develop their craft and design skills by making a variety of models using junk modelling, card, wood and different tools.

## Science

Our focus is 'Space and the children will learn about the sun, moon and Earth. They will develop their understanding about why we have night and day, what the sun provides Earth, why we have different seasons and the phases of the moon. We will also look at areas that the children have identified that they want to learn more about and develop ideas through their space role play area.

## Target Setting in the Classroom

Each term, your child will set targets which will challenge their learning and encourage them to try their best. The targets will stem from our termly overview targets and will be written into their pupil portfolios.

As the children achieve their targets, and celebrate their success, their work will be placed in their pupil portfolio which you can view on open days and parent's evenings. This folder forms a record of your child's development throughout their time at Tinto Primary School.

## Language and Literacy

In reading, the P1 children will continue to read picture books until they have learnt enough sounds and words to introduce text. We will be doing a lot of discussion about the illustrations and questioning. P2 will continue to read Dandelion Readers and Oxford Reading Tree books, practising new digraphs and words they are learning in phonics. In phonics the P1 children will learn two new sounds a week and three common words. The P2 children will revise previous digraphs and learn new ones. They will have four new common words each week to learn to read and spell. Our writing focus is Talk for Writing where the children verbally learn a story, role play, draw story maps and then write their own version of the story to retell to the class.

## Numeracy and Mathematics

In number P1 will be developing their number knowledge to 10, counting, ordering numbers, making number bonds, adding and subtracting and using ordinal language. P2 children will develop their number knowledge to 100 and beyond, counting in 1's, 2's, 5's 10's forwards and backwards from different numbers, adding and subtracting and partitioning and combining. We will be learning about measurement, length, height, mass capacity. The children will predict and then measure accurately using standard and non-standard forms of measuring. We will also learn about 'Time' including days of the week, months of the year, seasons and analogue and digital times on a clock.

## Overview Targets

**Literacy** - To join in speaking and actions for the Talk for Writing book.

P1 - To recognise, read and write the letters and common words.

P2- To write sentences sounding out unknown words and use common words.

**Maths** - P1- To learn number bonds to 10, days of the week and read and make o'clock.

P2- To add and subtract, partition and combine numbers, know months of the year and read and make o'clock and half past on analogue and digital.

**Health and Wellbeing** - To recognise the different food groups and food we should eat lots of and less of.

## Topic

In Social Subjects we will be thinking about the different types of weather we have and it's effects on how we feel and the activities that the children can or cannot undertake. We will be linking it to farming, the seasons and our topic of 'Space' in Science.

Primary 1/2 will have gym on Mondays and Thursdays. Please ensure they are wearing their PE kit to school on these days as we can't change into PE kits in school. PE must be done outdoors so please ensure their kit is weather appropriate. It is very helpful if everything has their name written on it!
