

# **Home Learning for Primary 4a**

23<sup>rd</sup> March to 3<sup>rd</sup> April 2020

## **Literacy and English**

• Using <u>Education City</u>, complete the spelling, reading and writing activities set up within your own spelling and reading groups.

#### **Maths and Numeracy**

• Using RMEasimaths (Accessed via Glow) and Education City, complete the activities set up within your own maths group

•

# <u>Cubes, Spheres & Cones</u>: mental Strategies for adding to or subtracting from up to 3-digit numbers

- Adding multiples of 10 or 100 to 2 and 3-digit numbers
- Using partitioning to add together 2 2-digit numbers (add the tens, add the units and then add both together (recombine))
- Using an imaginary number line: add to the larger number to reach the nearest 10 and then add the remainder
- When adding a number ending in 9 or 1, round that number to the nearest 10 then add and finally adjust the answer (+/- 1)
- Repeat these strategies for subtraction

#### **Pyramids**

- Continue to practise counting forwards and backwards to/from 100 in 2s, 5s and 10s
- Keep up the practice in reciting the 2 times table and recalling random facts
- Now begin to practise reciting the 10 times table and recall of random facts

### **Topic**

## https://www.ducksters.com/history/ancient rome.php

 Using the above website, choose an area(s) of the Ancient Romans not studied in class and complete a mini project with drawings/sketches and notes in your own words – remember this website has an <u>audio version</u> of the information on each page (usually at the end of the page) to help you with the reading.

## **Other Curricular Areas**

• See online activities for exercise routines e.g Go Noodle, Joe Wickes etc.

Remember to check the <u>school website</u> and <u>twitter</u> for other learning activities.
