

## Art & Design at National 5

### Why Art and Design?

This course is designed to give opportunities for self-expression and to work creatively with a variety of materials in a satisfying and enjoyable way. It provides an insight into the world of the Visual Arts and Design and helps to develop many skills such as research, problem solving and the development of technological skill through a range of cultural, social and historical contexts.

### Aims

- identify the creative development potential in their work
- confidently use selected art and design materials, techniques and/or technology expressively and creatively when responding to an expressive theme/stimuli and design brief
- produce and critically reflect on the final piece of expressive art and the design solution
- present their work for assessment
- to develop an understanding of the social and cultural influences on artists and designers and their work.

This course is suitable for all pupils with an interest in Art and Design, as well as creative individuals. It is suitable for pupils with a general interest in the subject, and for those wanting to progress onto further levels of study. This qualification will allow pupils to consolidate and further extend their Art and Design skills developed through the experiences and outcomes.

There are two practical components: **Expressive Portfolio** and **Design Portfolio**

### **Expressive Portfolio** (100 marks – scaled to 40% of the final mark)

- The initial expressive idea, research and further development work in 2D and/or 3D formats, showing the candidate's ability to respond to an expressive theme/stimuli.
- A final piece of expressive art in either 2D or 3D format as appropriate, which shows the candidate's ability to realise their idea and produce a piece of expressive art work.
- An evaluation of the expressive folio, reflecting on the impact of the candidate's creative choices and decisions.

### **Design Portfolio** (100 marks – scaled to 40% of the final mark)

- The initial design idea, research and further development work in 2D and/or 3D formats showing the candidate's ability to respond to the requirements of the design brief
- A final design solution in either 2D or 3D format as appropriate, showing their ability to realise their design idea and produce a design solution
- An evaluation of the design folio, reflecting on the impact of the candidate's design choices and decisions against the requirements of the design brief.

**Question Paper** (50 marks – scaled to 20% of the final mark)

The question paper adds value by requiring integration and application of knowledge and skills from across the Units.

**Assessment**

National 5 is graded externally A-D by SQA through the final combined Expressive and Design portfolio (April uplift) and written paper (May).

**Homework requirements**

Pupils will be expected to continue to study artists and art practices through research tasks to consolidate and enhance class work.

**Possible progression routes**

To progress into the Higher Art course pupils will be required to have gained a grade C at National 5.

**Further advice and information is available from  
the Art Department or Mrs Barrie.**
