

Respectful Inclusive Safe Kind

Braehead Primary **Rainbow Races** and **Fit Fortnight** Home Learning Grid

Literacy – Spelling

Words containing **ough**

How many words can you come up with that include **ough**.

For example, rough, brought, thorough.

Create your own list of 10. Challenge yourself and add words to the list that you find difficult to spell.

Practise these, just like we do in class.

You could create a word find, write silly sentences, pyramid writing, bubble writing, rainbow writing, write them in alphabetical order or choose your own way.

I wonder what the longest word is that you can find containing **ough**...

Literacy – Writing

Attached are two different pictures to choose from. Use your imagination and see what story/adventure you can come up with.

You can use the story starters below to help you or feel free to create your own!

Literacy – Reading

Miniature Book

Can you create your own miniature book? It could be based around a book you already know, or you could make up your short story....

The British Library are looking to add to their collection if you would like to send it in or keep it and share with your family at home.

The link below has more information.

<https://www.bl.uk/childrens-books/activities/make-a-miniature-book>

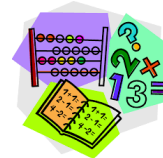

Remember to do your daily reading for **at least 45minutes**. If you are stuck for reading ideas have a look at www.getepic.com there are a lot of free e books.

Numeracy and Maths

Are you able to create three different headings

less than half, exactly half and greater than half.

Under each heading write/ draw as many fractions that you can. Use visual resources to help you and the example below to help you.

Extension- Are you able identify any fractions that are equivalent? There is a link below to remind you of equivalent fractions.

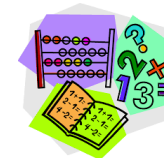

<https://www.youtube.com/watch?v=hMIQ1IWdQg>

Numeracy and Maths

Choose an amount of money such as £10.00, £20.00, £50.00 or £100.00.

Get an adult or sibling to say random amounts of money and practise working out how much change you would receive from that amount.

For example: I am practising change from £30.00 and an adult tells me an item costs £26.40 I need to work out how much change I would receive.

Numeracy and Maths

This game is a simple at home version of countdown.

What you need:

- 4 number cards with 25, 50, 75 and 100 on.
- A set of cards with the digits 1-10 on, with at least two cards for each number.

1: Set out 4 large number cards (25, 50, 75 and 100) face down and mixed up.

2: Do the same with the 1 – 10 cards, making sure you have at least 2 cards for each number.

3: Players take it in turns to select one of the big number cards or one of the small number cards, until there are 6 cards laid out altogether.

4: Someone who is playing the game needs to generate a 3-digit number. This can be by throwing a dice, or selecting cards from a pile of 0 to 9 cards.

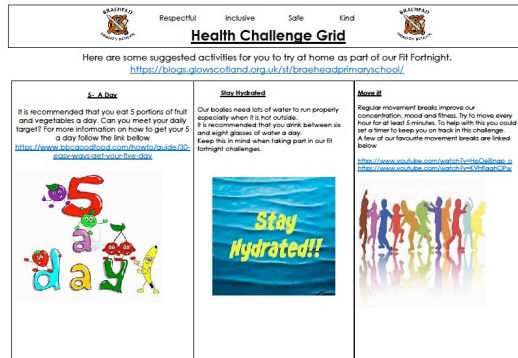

5: Once the number has been generated, turn over the six cards and players have to try and get to that total using any of the six number cards and any of the four operations.

Each card can only be used once and the winner is the first person to reach the total, or the player who is closest after a set length of time.

Creativity

Fit Fortnight

Let's get creative for fit fortnight! Here are some challenges that could earn you some house points. Could you...

- Create a house song or chant and perform it for your teacher.
- Design a house poster or winning certificate for our rainbow races.
- Create a team mascot.
- Build your own obstacle course for your family.
- Make your own medal.
- Research the Olympics.

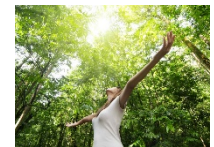

You could be creative by using recycling, pens, paint, or natural materials you find on your walks!

Each task you submit will earn you 1 house point.

Good luck!

Outdoor / Active

Take part in our rainbow races. Don't forget to share your participation photos with your class teacher via our Seesaw and Google Classroom apps. The house with the most participation wins the house cup! Click on the link below to access our activities.

<https://tinyurl.com/Braehead-Rainbow-Races>

Remember to use SUMDOG , TTRS and TOPMARKS as well. I have set challenges on SUMDOG for you to complete. Have a go and see how you get on. You can upload any of these tasks to Seesaw (if you would like). I would also love to see what else you have been doing at home.

“You shall go to the ball!” proclaimed the fairy godmother. With a click of her fingers and a swish of her wand, the magic happened, and Cinderella disappeared off into the night on the adventure of a lifetime...

Can you continue the story?

It came from the sea, calmly at first. An enormous, slithering tentacle slowly oozing its way over the top of the sea wall, exploring the metal and concrete shapes with suckers the size of your front door.

Then, as more and more people came, and shrieks and cries of alarm filled the air, the creature became angry. All hell broke loose...

In an almighty tangle of limbs and water and buildings and people, the beast came violently exploding out of the frothing water. The normally sturdy metal supports of the buildings groaned under the extreme weight of the gigantic tentacles crushing them. Panic. Complete panic set in.

But where had the creature come from? What did it want? How could anybody stop it?

There wasn't time for people to think. Only to run...
