# P4H Home Learning Grid 1<sup>st</sup> June 2020

Here are some suggested activities for you to try at home. These will be updated on the website every fortnight.

<https://blogs.glowscotland.org.uk/st/braeheadprimaryschool/>

**We are considering how best to support our children make the transition back to school in August.**

**We thought that photographs showing what life in lockdown has been like for your child would help support discussion on this topic.**

**In line with GDPR could you write on the back of any photographs you submit: "I give permission for this photograph to be shared with staff and children at Braehead Primary School" followed with your signature.**

Thank you.

## Literacy – Writing

I have written a letter to you all.

It's about my time in 'lockdown'. I have shared what I have been doing and how I have been feeling during this very strange time.

I would love for you to read this and write your own letter.

Once you have written your letter, you can keep this letter to yourself or share with as many people as you would like.

## Literacy – Reading

**Keep reading!** Pick and choose from the many different free e-books in the 'free e-book library' on [www.oxfordowl.co.uk](http://www.oxfordowl.co.uk). Log in and access for free.

Any books you do read then please remember to record on a piece of paper so that you can add it your **First Minister's Reading Challenge** at another time.

## Numeracy and Maths

Keep working on your 4 and 8 x tables. I have attached some multiplication wheels for you to try out.

## Numeracy and Maths

**Can you find the answers to these time questions? Be careful as they get more and more tricky...**

How many seconds are in a minute?  
How many minutes are in an hour?

## Numeracy and Maths

Have a go at the rounding questions below:

Round the following numbers to the **nearest ten**:  
25, 33, 67, 85, 96, 137

<p>For those looking for a challenge, I have included a x table word search with all the tables for you to try. Remember to use TTRS to learn new tables and reinforce those you know about already.</p> <p><b>If you would like your x tables changed, please leave a comment on Seesaw.</b></p>	<p>How many hours are in a day? How many days are in a week? How many weeks are in a year? How many days are in a year? How many minutes are in a day? How seconds are in a day? How many hours are in a year?</p> <p><b>Can you come up with any other 'How many' time questions and answers? Please share them with me!</b></p>	<p>Round the following numbers to the <b>nearest hundred</b>: 134, 268, 455, 661, 739, 1 254</p> <p>Round the following numbers to the <b>nearest thousand</b>: 2 345, 3 562, 4 443, 5 691, 6 868, 8 495</p> <p>If you want to challenge Mr Henderson, please post your best rounding questions on Seesaw. I will try my best to answer them!</p>
<p style="text-align: center;"><b><u>HWB</u></b></p> <p>Each day, go on a mission to do something kind for someone.</p> <p>You could give a compliment, write a nice note, help with chores or teach someone in your family something new...</p> 	<p style="text-align: center;"><b><u>Creativity</u></b></p> <p>Following on from our Rainbow Races, why not try to grow your own rainbow using the scientific process called the capillary action.</p> <p>Use the attached sheet to help you.</p> 	<p style="text-align: center;"><b><u>Outdoor / Active</u></b></p> <p>When the weather is really nice. I challenge you to come up with a water themed activity.</p> <p>You could create targets and shoot them with a water gun, set up your own Slip 'N' Slide or set up your own water table.</p> <p>The choice is yours!</p> 

Remember that you can use Sumdog  and TTRS  at anytime too.

Missing you all, stay safe and I hope to see you soon.
