

Numeracy and Mathematics

Learn the words to the song '1, 2, 3, 4, 5, Once I caught a fish alive'. Once you know it off by heart try making some actions up to go with it. Use <https://www.bbc.co.uk/teach/school-radio/nursery-rhymes-1-2-3-4-5-once-i-caught-a-fish-alive/zdy6jhw> to help you. You could even ask an adult to film your performance.

Literacy and English

Practise saying nursery rhymes with a family member. How many do you know? What is your favourite nursery rhyme? Can you draw a picture to illustrate it? Visit <https://www.preschool-plan-it.com/nursery-rhyme-activities.html> to help you learn the words of different nursery rhymes and get some ideas of activities that link to each one.

Numeracy and Mathematics

Print off the school morning routine cards or make up some of your own. Talk about each one with a family member – think about what you will wear when you go to school, what you might have for breakfast and what you need to remember before you leave home etc. With help put the cards in the correct order. Which one will you do first? Why not make them into a chart to help you get ready in time for school each morning?

Literacy and English

Use the rhyming cards and look at each picture. Say each word out loud and try to match it up with its rhyming partner. Once you are familiar with them you could use them to play the games 'snap' or 'pairs'. Can you think of any other words that rhyme? Draw pictures or write a list of words that rhyme with each other.

Transition into Primary 1

Numeracy and Literacy Activities

These are suggested activities and ideas which your child can do in preparation for starting school. Feel free to post any photos to the nursery Facebook page or tweet directly to @cambpsgov for us to share and celebrate learning together!

Literacy and English

Your new teachers are really looking forward to meeting you on the first day of Primary 1. They would love to get to know you better, so please complete the 'All About Me' worksheet to tell them a little more about you. Either share it on our school Facebook or Twitter pages or hand it in on your first day of school.

Numeracy and Mathematics

Draw a picture to help you remember the date of your birthday. Think of what the weather is like at that time of year and what activities you might do in that month too.

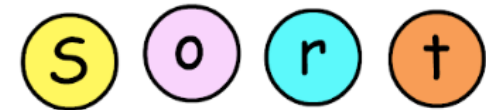

Literacy and English

Ask an adult to write down your name for you to look at. Go on a letter hunt in books, magazines or on the backs of food packets etc. How many of the letters in your name can you find?

Numeracy and Mathematics

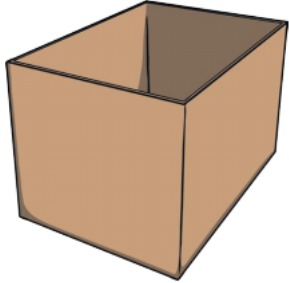

Collect 10 sticks. Can you sort them in order from the shortest to the longest? Gather objects and materials from around the house and garden. Can you sort them into different colours? Try and make some patterns out of what you have collected.
