DATA PROTECTION: Privacy Statement

The information collected in this form is used by Stirling Council to exercise our statutory duties in relation to Early Learning and Childcare (ELC) and funded childcare places at local authority nurseries, private partner nurseries, and partner childminders. The Council has duties under the Education (Scotland) Act 1980, the Standards in Scotland's Schools etc. Act 2000, and the Children & Young People (Scotland) Act 2014.

The purposes of collecting information through the application form include:

- to allocate children to appropriate ELC settings based on location or parental choice
- to ensure a child is given appropriate provision to meet their needs and to have contact details for when required
- to form the basis of the child's school record when they transition to school
- to allow the setting and the local authority to monitor and plan for ELC provision that is flexible and allows for an appropriate degree of parental choice
- to allow the Scottish Government, as part of the ELC census, to monitor and plan for ELC provision (names and full addresses are not shared)
- to allow, in the future, the information to be linked to other data such as social work, education or health data to consider the effects of different ELC provision on a child's outcomes and to allow school education functions to be exercised in a way designed to reduce inequalities of outcome.

The information collected will be kept by Stirling Council on computer until your application is processed, and while your child attends a funded childcare place. If your child moves on to a Stirling Council school, the information will be retained on a system called SEEMiS which is used to store information about pupils attending our schools. If your child moves onto a school outwith the Stirling Council area, their details will be deleted once your child no longer attends nursery.

Some of the information collected here will be shared with the Scottish Government to improve the ability to monitor ELC rates and analyse these by children's characteristics in order to identify specific groups for targeted support and improve the outcomes for children and reduce inequalities. Names and full addresses are not shared with the Scottish Government.

You have rights in relation to personal data processed about you and your child, including a right of access to personal data, and a right to object to processing.
